American Rescue Plan - Phase Two

Purpose

On March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 (H.R. 1319) into law. The \$1.9 trillion package, based on President Biden's American Rescue Plan, is intended to combat the COVID-19 pandemic, including the public health and economic impacts.

Davie County will receive \$8,322,333 of the local fiscal recovery funds over two fiscal years. The funds must be allocated by December 31, 2024. The County will develop a plan to allocate these funds at their highest and best use in conjunction with the County's Strategic Plan, community need, and will not duplicate efforts made by other governmental units or non-profit organizations. This proposal is phase two of this plan.

Public Health Response - \$350,000

There are several areas addressed in the act regarding proper use of funds. One of these areas is the mitigation of the effects on the physical well-being of County citizens. The County proposes

to use the funds to hire two additional Public Health Nurse II to aid in the County's efforts for Vaccination, Testing, Contact Tracing, and any other COVID-19 response efforts. This amount will fund these two positions until December 2024.

Administration of American Rescue Plan Funds - \$830,000

The legislation allows funds to be used for administration and reporting of their use. The County proposes that a maximum of 10% of the funds be allocated for this purpose. A time-limited position in County Administration/Finance is proposed to assist in the tracking, recording, and reporting of the use of these funds. Additionally, some funds will be used for existing staff time of researching, preparing plan documents, and accounting for and tracking of these activities.

Revenue Replacement - \$1,009,219

State, local, territorial, and Tribal governments that are facing budget shortfalls may use Coronavirus State and Local Fiscal Recovery Funds to avoid cuts to government services. With these additional resources, recipients can continue to provide valuable public services and ensure that fiscal austerity measures do not hamper the broader economic recovery. The County has calculated \$1,009,219 as the amount of revenue replacement eligible through December 31, 2020. There will be future calculations made after the end of the time periods designated by the U.S. Treasury guidance.

Fiscal Impact

\$2,289,219 of the \$8,322,333 of American Rescue Plan funds will be used for these purposes; no County funds impacted. Including the \$112,000 allocated in August 2021 for Lucas devices, the total currently allocated is \$2,401,219.

IX. LAND USE/ ZONING HISTORY

- **1973:** The properties were originally zoned Residential Agriculture.
- **1992:** A Special Use Permit was issued for the use of a Veterinary Service Facility.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Residential and Commercial/Mixed-Use on the Davie County Land Use Category Map. The Residential district is defined as single family, duplex, or other limited types of residential subdivision development. Intended to preserve and protect residential areas from encroachment by non-residential land uses.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Discourage medium to high-density residential development with poor soils for septic where water and wastewater infrastructure does not exist.
- Ensure that runoff and drainage from development and agricultural activities is as close to natural pre-development conditions as possible.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Rural Growth Area. This area is characterized by traditional agricultural operations, pasture land, forestry, and open space scattered non-farm residences on large tracts of land. Rural scenic vistas are a natural part of the landscape. There is normally an abundance of large, undeveloped tracts not experiencing significant residential development encroachment or pressure. There are natural, scenic, historic, or other heritage assets that contribute to the special characteristics of the area that might require special conservation and management. Land use changes in this area should be designated to protect the rural character and discourage premature public infrastructure demands by sustaining groundwater recharge capacity.

The Growth Enhancement Strategy describes policies within the rural growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community

X. ISSUES TO CONSIDER

The Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Special Use Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Planning Board heard the request at their July 27th regular meeting and voted unanimously to recommend approval (7-0). See attached signed recommendation.

XI. BOARD ACTION

The Board of County Commissioners is requested to hold a public hearing for this zoning map amendment at the regular September 7th meeting. Following the public hearing, the Board is requested to take action following a motion and a second for one of the items below:

- ☐ **Move that the following statement be adopted in support of a Motion to Approve;** the amendment promotes public health, safety and general welfare; is consistent with some applicable adopted plans and considers the action to be reasonable and in the public interest; that said approval furthers the goals, objectives, actions and policies of the Comprehensive Plan because it is in harmony with the surrounding area and uses, and it is in the vicinity of commercially zoned property and has historically been used commercially.
- ☐ **Move that the following statement be adopted in support of a Motion to Deny,** the amendment is not consistent with all applicable adopted plans; the amendment does not promote the public health, safety and general welfare and does not consider the action to be reasonable and in the public interest due to: the amendment does not protect the areas residential, rural historic character, the amendment will have detrimental effects and will not protect, enhance and encourage a high quality of life, and image enjoyed by area residents.
- ☐ **Defer** the amendment for additional consideration.

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

IX. LAND USE/ ZONING HISTORY

- **1973:** The properties were originally zoned Residential 12.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Commercial/Mixed-Use on the Davie County Land Use Map.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Ensure that runoff and drainage from development and agricultural activities is as close to natural pre-development conditions as possible.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Primary Growth Area. The primary county growth area is located adjacent to municipal limits or regulatory areas and generally extends along major urban/transportation corridors within the county. It includes areas that are likely to have access to urban infrastructure services, such as water and sewer, within the near future. The Primary Growth Area is predominantly mixed use that will include residential and commercial development. Higher urban type density level can be anticipated in this area.

The Growth Enhancement Strategy describes area characteristics within the primary growth area as:

- Close to municipalities and central business districts
- Likely to have access to both public water and sewer in the foreseeable future.
- Predominately mixed use including, residential and commercial.
- Highest density residential development
- Prime site for office and commercial locations
- Adjacent to primary and interstate roads.
- Prime site for industrial locations

Policy 3.1 Industrial development should not be located in areas that would diminish the desirability of existing and planned residential uses, nor should major subdivisions be allowed to encroach upon existing or planned industrial sites without appropriate buffers.

Policy 3.2 Industrial development will be on land that is physically suitable and has unique location advantages for industry. Advanced planning for the identification of such land will be encouraged.

Policy 3.3 Heavy industrial sites will be separated from non-industrial areas by natural features, green belts and/or other suitable means.

Policy 3.6 New industrial development will be encouraged to locate in existing and planned industrial parks.

Policy 4.1 Commercial development will be encouraged to occur in clusters or planned shopping centers to minimize the proliferation of “retail strip” locations.

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

Policy 4.8 Office and institutional development will be encouraged to locate as transitional land use between activities of higher and lower intensity.

Policy 6.9 The County will consider ways to preserve buffers and other sensitive areas through density averaging and/or conservation agreements.

Policy 6.5 Site plans will be provided that design built-upon areas to specifically minimize stormwater runoff impact to streams and other receiving waters.

Policy 6.10 The County will clearly define land areas that are appropriate for development, as well as defined areas of environmentally sensitive, natural, or heritage asset land areas that need special protection.

X. ISSUES TO CONSIDER

The Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Special Use Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Planning Board heard the request at their July 27th regular meeting and voted unanimously to recommend approval (6-0). See attached signed recommendation.

XI. BOARD ACTION

The Board of County Commissioners is requested to hold a public hearing for this zoning map amendment at the regular September 7th meeting. Following the public hearing, the Board is requested to take action following a motion and a second for one of the items below:

☐ **Move that the following statement be adopted in support of a Motion to Approve;** the amendment promotes public health, safety and general welfare; is consistent with all applicable adopted plans and considers the action to be reasonable and in the public interest; that said approval furthers the goals, objectives, actions and policies of the Comprehensive Plan because it is in harmony with the surrounding area and uses, and it is in the vicinity of commercially zoned property.

☐ **Move that the following statement be adopted in support of a Motion to Deny,** the amendment is not consistent with all applicable adopted plans; the amendment does not promote the public health, safety and general welfare and does not consider the action to be reasonable and in the public interest due to: the amendment does not protect the areas residential, rural historic character, the amendment will have detrimental effects and will not protect, enhance and encourage a high quality of life, and image enjoyed by area residents.

☐ **Defer** the amendment for additional consideration.

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

With the property survey attached my wife and I are looking to purchase tract 2,3,4,5, and 6. We are asking to only have tract 3,4,5, and 6 rezoned for commercial purpose. We would like to leave tract 2 as residential out of respect for neighboring residents. As far as our plans with the property go if granted approval for rezoning our plans are to build a 20,000-25,000 sq/ft warehouse for our clothing business (Bird & Co). We would not be open to the public at this location it would only be used for our online business. Our business loves to give back and help others in need when possible. We would love to bring many more jobs to our community.

THIS AGREEMENT FOR ECONOMIC DEVELOPMENT ASSISTANCE (this “Agreement”) is made and entered into by and among the **County of Davie**, a North Carolina body politic (the “County”), the **Town of Mocksville**, a North Carolina municipal corporation (the “Town”), and **DFA US, Inc.** (the “Company”), a United States corporation, registered to do business in the State of North Carolina.

RECITALS:

1. In consideration of Incentives approved by the County on September 7, 2021 and the Town on September 7, 2021 the Company will purchase the Property (as defined below) for the purpose of operating a sound deadener and insulation manufacturing facility for use in the automotive industry at 300 Bethel Church Road, Mocksville, Davie County, North Carolina at a purchase price of \$500,000.00, and will expend, approximately \$5,465,942.00 to equip and install fixtures and other personal property, including, without limitation, manufacturing equipment at the manufacturing facility (the “Facility”) located on the Property by December 31, 2023. The Company intends to create the following Jobs as indicated:

December 31, 2022- Fifty (50) new Jobs

December 31, 2023- Two (2) additional new Jobs

December 31, 2023- Four (4) additional new Jobs

The Company intends that the investment by or on its behalf in the Economic Development Project, as defined below, at the Facility will be sufficient to meet the Tax Base Increase Requirement as defined below.

2. The County and Town have policies for providing assistance for economic development projects by granting incentives which are permitted under NCGS 158-7.1 et. seq. and the laws of the State of North Carolina and, pursuant to those policies, the County on September 7, 2021 and Town on September 7, 2021 approved incentives, respectively.
3. The County and Town have determined that providing economic development incentives for the Economic Development Project (as defined below) will benefit the general public health, safety and welfare of the citizens of the State of North Carolina, the County, and the Town by promoting the creation of jobs, by creating an opportunity for the development of new skill sets existing in the County’s

available workforce, by increasing the County's and Town's tax base, by enhancing the industrial and business conditions and prospects of the County and Town, by increasing the likelihood of a stable economic environment in the County and the Town, and by attracting to the County, Town, and State a new industry.

4. The Economic Development Project would not occur without the provision of the Economic Development Incentives by the County and the Town, coupled with the economic development activities and assistance provided by the Davie County Economic Development Commission, Inc.
5. The Company considered other states within which to build the Economic Development Project, and the Economic Development Incentives were critical to the Company's favorable decision to locate in Davie County, North Carolina. But for the Economic Development Incentives and the assistance and facilitation of the Davie County Economic Development Commission, Inc., the Company would more likely than not have chosen a state other than North Carolina within which to locate.

**NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES
CONTAINED HEREIN, THE PARTIES AGREE:**

- After months of decline, North Carolina is experiencing a rapid increase in COVID-19 cases among those who are unvaccinated.
- Davie County had 42 new cases over the weekend.
- The Delta variant is now causing the vast majority of COVID-19 cases in NC and nationally. Delta is more infectious than previous variants. The vast majority of recent cases are in people who are not fully vaccinated (94% of cases and deaths from May 6 - July 11).
- All of the state's key metrics are increasing. To respond to these rising trends, the State has updated its [guidance <https://urldefense.com/v3/_https://covid19.ncdhhs.gov/media/2859/open_!!HYmSTo o!PE0w5rq-jQnRNCKxyDEwfG5eESYU6TSzuUZBnA3ZrQyoHhmLIfqbTqh5GUVyb3ih-ahnjCjI-E\\$>](https://www.ncdhhs.gov/media/2859/open_!!HYmSTo o!PE0w5rq-jQnRNCKxyDEwfG5eESYU6TSzuUZBnA3ZrQyoHhmLIfqbTqh5GUVyb3ih-ahnjCjI-E$>).
- Everyone is encouraged to practice the three W's:
 - (1) Wear a mask in all indoor public settings.
 - (2) Wait six feet apart in all public settings.
 - (3) Wash your hands often.
- Furthermore, the Centers for Disease Control and Prevention recommends people who live in areas with [high or substantial levels of transmission <https://urldefense.com/v3/_https://covid.cdc.gov/covid-data-tracker/*county-view_!w!!HYmSToo!PE0w5rq-jQnRNCKxyDEwfG5eESYU6TSzuUZBnA3ZrQyoHhmLIfqbTqh5GUVyb3ih-ahnJqaQGjU\\$>](https://urldefense.com/v3/_https://covid.cdc.gov/covid-data-tracker/*county-view_!w!!HYmSToo!PE0w5rq-jQnRNCKxyDEwfG5eESYU6TSzuUZBnA3ZrQyoHhmLIfqbTqh5GUVyb3ih-ahnJqaQGjU$>) wear a mask when in indoor public settings - even if they are vaccinated.
- Walk-in COVID vaccinations are available at Davie County Health & Human Services (HHS). Vaccinations are also available by appointment at by calling 336-753-6779.
- As you are aware, a resolution was adopted unanimously by this Board on June 2, 2021, directing staff to begin the process of disengagement from Cardinal Innovations Healthcare, our current LME/MCO; and on June 29, 2021, this Board voted unanimously to realign with Partners Health Management.
- Through a resolution on the consent agenda for tonight's meeting, you approved a Plan of Disengagement from Cardinal.

- We will post this plan on our website tomorrow, and Davie County will seek public comment on the plan for 60 days.
- Following this public comment period, the County will post all responses for an additional 30 days.
- Davie County will take into consideration feedback received, revise the Disengagement Plan (as appropriate), and will submit a written request to disengage to the Secretary of NCDHHS for her approval.
- As we work through this transition, Davie County remains committed to facilitating and providing appropriate services for our residents. We will continue to work with Cardinal Innovations / Vaya in a professional and appropriate manner, which is in the best interest of our organization and the residents of Davie County.
- REMINDER - Davie County signed a contract with Fountainworks (a consulting firm) to design and conduct a public engagement process regarding Davie County's strategic priorities.
- In September, an in-person open house is planned where residents and other stakeholders can provide input on Davie County's priorities.
- Following the open house, multiple focus groups will be held virtually in October with target audiences / key stakeholders.
- Involving the community is crucial to continually updating and refining the county's strategic goals and budgeting priorities, and we look forward to this community engagement process.
- We have a Summer Concert Series event coming up on Saturday, August 14th at 6:30 p.m. - ACE Party Band.

Commissioner Finney spoke about the usage of American Rescue Plan funds to purchase Lucas devices (a mechanical chest compression-decompression system which enables automated and continuous closed chest compressions) for each ambulance. Assistant County Manager/Chief Financial Officer, Robin West, discussed the funds and how the County will need to develop a full plan in order to utilize all of the funds. Ms. West stated the funds must be used in response to the public health emergency. The County received \$4,100,000 in June, 2021.

A motion was made by Commissioner Finney to adopt the resolution below. Commissioner Jones seconded the motion. All were in favor, and the motion passed 4-0 (Renegar, Finney, Jones, Poindexter).

RESOLUTION ADOPTING PHASE ONE SPENDING PLAN OF THE AMERICAN RESCUE PLAN ACT

WHEREAS, on March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 (H.R. 1319) into law. The \$1.9 trillion package, based on President Biden's American Rescue Plan, is intended to combat the COVID-19 pandemic, including the public health and economic impacts; and,

WHEREAS, Davie County will receive \$8,322,333 of the local fiscal recovery funds over two fiscal years. The funds must be allocated by December 31, 2024. The County will develop a plan to allocate these funds at their highest and best use in conjunction with the County's Strategic Plan and community need; and,

WHEREAS, pursuant to the American Rescue Plan Act and the Internal Revenue Service Interim Final Rules, Section 602(c)(1) and Section 603(c)(1) and 31CFR Part 35 RIN 1505-AC77 provides that funds may be used to respond to the public health emergency impacts; and,

WHEREAS, of the funds allocated to local governments, the need to address the mental and physical well-being of County citizens should be mitigated; and,

WHEREAS, the County proposes to use a portion of the funds for Lucas devices for Emergency Medical Services. The Lucas device is a mechanical chest compression device that assists in delivering high-quality, guidelines-consistent chest compressions to sudden cardiac arrest patients in the field, on the move, and in the hospital, including patients who are exhibiting symptoms of Covid-19 infection. The purchase and use of the Lucas devices are in direct response to the Covid-19 disease and the public health emergency created therein. The County plans to purchase seven additional devices for each ambulance at a cost of \$112,000 (\$16,000 each), \$112,000 of the \$8,322,333 of American Rescue Plan funds will be used to supplement general revenue expenditures for pandemic purposes; and,

WHEREAS, the need for additional Lucas devices for Emergency Medical Services has been greatly increased due to the number of Covid-19 related emergency calls wherein patients have exhibited Covid-19 related symptoms which has had a major public health impact and economic impact on Emergency Medical Services in Davie County.

NOW, THEREFORE, UPON MOTION DULY MADE AND SECONDED, IT IS RESOLVED as follows:

BE IT RESOLVED, that Davie County use funds from the general fund for the expenditure of the purchase of the seven Lucas devices, subject to reimbursement out of the restricted ARP funds as appropriated in the annual budget ordinance thru an amendment to the budget ordinance to make more specific budget appropriations of the ARP funds.

This the 2nd day of August, 2021.

SECTION 1

CONSOLE SYSTEM OVERVIEW

In response to a request from Davie County, NC, Motorola is providing pricing for a MCC7500E Console System as detailed below. Consoles are anticipated to be utilized with the statewide VIPER P25 radio network. The pricing provided is based on the Design Assumptions listed below. Services include installation, optimization, and project coordination.

The system design consists of one (1) MCC7500E IP based Console System to be located at the Primary Dispatch facility. The proposal provides a six (6) operator position MCC7500E IP based Console System for the Primary Dispatch Center. Consoles are anticipated to be utilized and connected with the statewide VIPER P25 radio network Master Core designated by Viper. Conventional Channel Gateway (CCGW) equipment is provided to control up to twenty-four (24) conventional resources for use with the MCC7500E consoles. Examples of conventional resources are backup 800 MHz resources for VIPER, conventional UHF, and VHF channel resources.

A Conventional Site Controller (CSC) is supplied at the dispatch center to operate the console system in backup mode in the event of a Master Site link failure.

Twenty-two (22) inch touch screen display monitors are provided for use at each operator position.

Software based Instant Recall voice recorder systems will be installed on each operator position computer. This will allow for recall of recordings of recent voice traffic by the dispatch operator. This system is not a replacement for and does not provide functionality of a long term voice recorder or recording storage system. Long term voice recording equipment or IP recording equipment is not part of this quotation. No Archiving Interface Servers (AIS) is provided for the Dispatch Center. The AIS provides the interface between the console system and a third party IP Logging recorder

Advantages of connecting with a VIPER Core

- MCC7500E Consoles connected to Viper eliminates the need for the console owner to purchase a core or master site. The consoles joining Viper use a customer leased Ethernet connection to the appropriate Viper core or Master site. The consoles utilize the Viper Master site for operation and configuration.
- Consoles joining Viper join the Viper statewide P25 network and have access to many Viper and county mutual aid and interoperable response talk groups as well as other county talk groups without the need to purchase control stations to access the talk groups.
- Direct core connected consoles employ mission critical public safety features such as console priority and full duplex operation that allow dispatchers to have priority over field users and enjoy enhanced receive audio processing.

- In addition to the robust feature sets that are available with MCC 7500E consoles the user joins the statewide P25 radio network that also consists of approximately 50 dispatch centers across the state. This network allows for greater flexibility during disaster and disaster response scenarios. Console configurations can be quickly developed and loaded allowing affected areas to relocate dispatch center operations, quickly add any required talk groups, and maintain communications to local and visiting mutual aid personnel via the Viper P25 system. A county's console site user profile can be loaded at other MCC7500E Dispatch Centers that are connected to Viper allowing the foreign dispatch center in the system to technically serve as a backup radio dispatch center for the affected dispatch center.

Section 3 SCOPE OF AGREEMENT AND TERM

3.1. **SCOPE OF WORK.** Motorola will provide, install and test the System(s), and perform its other contractual responsibilities to provide the Solution, all in accordance with this Agreement. Customer will perform its contractual responsibilities in accordance with this Agreement.

3.2. **CHANGE ORDERS.** Either Party may request changes within the general scope of this Agreement. If a requested change causes an increase or decrease in the cost or time required to perform this Agreement, the Parties will agree to an equitable adjustment of the Contract Price or applicable subscription fees, Performance Schedule, or both, and will reflect the adjustment in a change order or Addendum. Neither Party is obligated to perform requested changes unless both Parties execute a written change order.

3.3. **TERM.** Unless terminated in accordance with other provisions of this Agreement or extended by mutual agreement of the Parties, the term of this Agreement begins on the Effective Date and continues until the date of Final Project Acceptance or expiration of the Warranty Period, or completion of the

Services, whichever occurs last. The term and the effective date of recurring Services will be set forth in the applicable Addendum.

3.4. **ADDITIONAL EQUIPMENT OR SOFTWARE.** For three (3) years after the expiration date of the Agreement, Customer may order additional Equipment or Software, if it is then available. Each purchase order must refer to this Agreement, the expiration date of the Agreement, and must specify the pricing and delivery terms. The Parties agree that, notwithstanding expiration of the Agreement, the applicable provisions of this Agreement (except for pricing, delivery, passage of title and risk of loss to Equipment, warranty commencement, and payment terms) will govern the purchase and sale of the additional Equipment or Software. Additional or contrary terms in the purchase order will be inapplicable, unless signed by both parties. Title and risk of loss to additional Equipment will pass at shipment, warranty will commence upon delivery, and payment is due within thirty (30) days after the invoice date. Motorola will send Customer an invoice as the additional Equipment is shipped or Software is licensed. Alternatively, Customer may register with and place orders through Motorola Online ("MOL"), and this Agreement will be the "Underlying Agreement" for those MOL transactions rather than the MOL On-Line Terms and Conditions of Sale. MOL registration and other information may be found at <https://businessonline.motorolasolutions.com> and the MOL telephone number is (800) 814-0601.

3.5. **MOTOROLA SOFTWARE.** Any Motorola Software, including subsequent releases, is licensed to Customer solely in accordance with the Software License Agreement. Customer hereby accepts and agrees to abide by all of the terms and restrictions of the Software License Agreement.

3.6. **NON-MOTOROLA SOFTWARE.** Any Non-Motorola Software is licensed to Customer in accordance with the standard license, terms, and restrictions of the copyright owner on the Effective Date unless the copyright owner has granted to Motorola the right to sublicense the Non-Motorola Software pursuant to the Software License Agreement, in which case it applies and the copyright owner will have all of Licensor's rights and protections under the Software License Agreement. Motorola makes no representations or warranties of any kind regarding Non-Motorola Software. Non-Motorola Software may include Open Source Software.

3.7. **SUBSTITUTIONS.** At no additional cost to Customer, Motorola may substitute any Equipment, Software, or services to be provided by Motorola, if the substitute meets or exceeds the Specifications and is of equivalent or better quality to the Customer. Any substitution will be reflected in a change order.

3.8. **OPTIONAL EQUIPMENT OR SOFTWARE.** This paragraph applies only if a "Priced Options" exhibit is shown in Section 1, or if the parties amend this Agreement to add a Priced Options exhibit. During the term of the option as stated in the Priced Options exhibit (or if no term is stated, then for one (1) year after the Effective Date), Customer has the right and option to purchase the equipment, software, and related services that are described in the Priced Options exhibit. Customer may exercise this option by giving written notice to Seller which must designate what equipment, software, and related services Customer is selecting (including quantities, if applicable). To the extent they apply, the terms and conditions of this Agreement will govern the transaction; however, the parties acknowledge that certain provisions must be agreed upon, and they agree to negotiate those in good faith promptly after Customer delivers the option exercise notice. Examples of provisions that may need to be negotiated are: specific lists of deliverables, statements of work, acceptance test plans, delivery and implementation schedules, payment terms, maintenance and support provisions, additions to or modifications of the Software License Agreement, hosting terms, and modifications to the acceptance and warranty provisions.

Section 4 SERVICES

4.1. If Customer desires and Motorola agrees to continue Services beyond the Term, Customer's issuance and Motorola's acceptance of a purchase order for Services will serve as an automatic extension of the Agreement for purposes of the continuing Services. Only the terms and conditions applicable to the performance of Services will apply to the extended Agreement.

4.2. During the Warranty Period, in addition to warranty services, Motorola will provide maintenance

Services for the Equipment and support for the Motorola Software pursuant to the applicable maintenance and support Statements of Work. Support for the Motorola Software will be in accordance with Motorola's established Software Support Policy. Copies of the SwSP can be found at <http://www.motorolasolutions.com/softwarepolicy> and will be sent by mail, email or fax to Customer upon written request. Maintenance Services and support during the Warranty Period are included in the Contract Price. Unless already included in the Contract Price, if Customer wishes to purchase 1) additional maintenance or software support services during the Warranty Period; or 2) continue or expand maintenance, software support, installation, and/or SUA services after the Warranty Period, Motorola will provide the description of and pricing for such services in a separate proposal document. Unless otherwise agreed by the parties in writing, the terms and conditions in this Agreement applicable to maintenance, support, installation, and/or SUA Services, will be included in the Maintenance and Support Addendum, SUA Addendum, the applicable Statements of Work, and the proposal, (if applicable). These collective terms will govern the provision of such Services.

To obtain any such additional Services, Customer will issue a purchase order referring to this Agreement and the separate proposal document. Omission of reference to this Agreement in Customer's purchase order will not affect the applicability of this Agreement. Motorola's proposal may include a cover page entitled "Service Agreement" or "Installation Agreement", as applicable, and other attachments. These cover pages and other attachments are incorporated into this Agreement by this reference

4.3. **PROFESSIONAL AND SUBSCRIPTION SERVICES.** If Customer purchases professional or subscription Services as part of the Solution, additional or different terms specific to such Service will be included in the applicable Addendum and will apply to those Services. Customer may purchase additional professional or subscription services by issuing a purchase order referencing this Agreement and Motorola's proposal for such additional services.

4.4. Any information in the form of specifications, drawings, reprints, technical information or otherwise furnished to Customer in providing Services under this Agreement or Motorola data viewed, accessed, will remain Motorola's property, will be deemed proprietary, Confidential Information. This Confidential Information will be promptly returned at Motorola's request.

4.5. **TOOLS.** All tools, equipment, dies, gauges, models, drawings or other materials paid for or furnished by Motorola for the purpose of providing Services under this Agreement will be and remain the sole property of Motorola. Customer will safeguard all such property while it is in Customer's custody or control, be liable for any loss or damage to this property, and return it to Motorola upon request. This property will be held by Customer for Motorola's use without charge and may be removed from Customer's premises by Motorola at any time without restriction. Upon termination of the contract for any reason, Customer shall return to Motorola all equipment delivered to Customer.

4.6. **COVENANT NOT TO EMPLOY.** During the term of this Agreement and continuing for a period of two (2) years thereafter, Customer will not hire, engage on contract, solicit the employment of, or recommend employment to any third party of any employee of Motorola or its subcontractors without the prior written authorization of Motorola. This provision applies only to those employees of Motorola or its subcontractors who are responsible for rendering Services under this Agreement. If this provision is found to be overly broad under applicable law, it will be modified as necessary to conform to applicable law.

4.7. **CUSTOMER OBLIGATIONS.** If the applicable Statement of Work or Addendum contains assumptions that affect the Services or Deliverables, Customer will verify that they are accurate and complete. Any information that Customer provides to Motorola concerning the Services or Deliverables will be accurate and complete in all material respects. Customer will make timely decisions and obtain any required management approvals that are reasonably necessary for Motorola to perform the Services and its other duties under this Agreement. Unless the Statement of Work states the contrary, Motorola may rely upon and is not required to evaluate, confirm, reject, modify, or provide advice concerning any assumptions and Customer-provided information, decisions and approvals described in this paragraph.

4.8. **ASSUMPTIONS.** If any assumptions or conditions contained in this Agreement, applicable Addenda or Statements of Work prove to be incorrect or if Customer's obligations are not performed, Motorola's ability to perform under this Agreement may be impacted and changes to the Contract Price, subscription fees, project schedule, Deliverables, or other changes may be necessary.

4.9. **NON-PRECLUSION.** If, as a result of the Services performed under this Agreement, Motorola recommends that Customer purchase products or other services, nothing in this Agreement precludes Motorola from participating in a future competitive bidding process or otherwise offering or selling the recommended products or other services to Customer. Customer represents that this paragraph does not violate its procurement or other laws, regulations, or policies.

4.10. **PROPRIETARY MATERIALS.** Customer acknowledges that Motorola may use and/or provide Customer with access to Proprietary Materials and Derivative Proprietary Materials. The Proprietary Materials and the Derivative Proprietary Materials are the sole and exclusive property of Motorola and Motorola retains all right, title and interest in and to the Proprietary Materials and Derivative Proprietary Materials.

4.11. **ADDITIONAL SERVICES.** Any services performed by Motorola outside the scope of this Agreement at the direction of Customer will be considered to be additional Services which are subject to additional charges. Any agreement to perform additional Services will be reflected in a written and executed change order, Addendum or amendment to this Agreement.

Section 5 PERFORMANCE SCHEDULE

The Parties will perform their respective responsibilities in accordance with the Performance Schedule. By executing this Agreement, Customer authorizes Motorola to proceed with contract performance.

Section 6 CONTRACT PRICE, PAYMENT AND INVOICING

6.1. Customer affirms that a purchase order or notice to proceed is not required for contract performance or for subsequent years of service, if any, and that sufficient funds have been appropriated in accordance with applicable law. The Customer will pay all invoices as received from Motorola and any changes in scope will be subject to the change order process as described in this Agreement. At the time of execution of this Agreement, the Customer will provide all necessary reference information to include on invoices for payment in accordance with this Agreement.

6.2. **CONTRACT PRICE.** The Contract Price for the MCC7500E console system in U.S. dollars is \$431,640. If applicable, a pricing summary is included with the Payment schedule in Exhibit B. Motorola has priced the Services, Software, and Equipment as an integrated System. A change in Software or Equipment quantities, or Services, may affect the overall Contract Price, including discounts if applicable. Fees for professional, System Upgrade Assurance (SUA), and/or subscription services which are not included in the Contract Price may be listed in Exhibit B, the pricing pages of the proposal, or the applicable Addendum.

6.3. **INVOICING AND PAYMENT.** Motorola will submit invoices to Customer according to the Payment schedule in Exhibit B. Invoices will be mailed or emailed to Customer pursuant to Section 6.5, Invoicing and Shipping Addresses. Except for a payment that is due on the Effective Date, Customer will make payments to Motorola within thirty (30) days after the date of each invoice. Customer will make payments when due in the form of a wire transfer, check, or cashier's check from a U.S. financial institution. Overdue invoices will bear simple interest at the maximum allowable rate. For reference, the Federal Tax Identification Number for Motorola is 36-1115800.

6.4. **FREIGHT, TITLE, AND RISK OF LOSS.** Motorola will pre-pay and add all freight charges to the invoices. Title and risk of loss to the Equipment will pass to Customer upon shipment. Title to Software will not pass to Customer at any time. Motorola will pack and ship all Equipment in accordance with good commercial practices.

6.5. INVOICING AND SHIPPING ADDRESSES. Invoices will be sent to the Customer at the following address:

Name: _____
 Address: _____
 Phone: _____

E-INVOICE. To receive invoices via email:

Customer Account Number: _____
 Customer Accounts Payable Email: _____
 Customer CC(optional) Email: _____

The address which is the ultimate destination where the Equipment will be delivered to Customer is:

Name: _____
 Address: _____

The Equipment will be shipped to the Customer at the following address (insert if this information is known):

Name: _____
 Address: _____
 Phone: _____

Customer may change this information by giving written notice to Motorola.

Section 7 SITES AND SITE CONDITIONS

7.1. ACCESS TO SITES. In addition to its responsibilities described elsewhere in this Agreement, Customer will provide a designated project manager; all necessary construction and building permits, zoning variances, licenses, and any other approvals that are necessary to develop or use the sites and mounting locations; and access to the worksites or vehicles identified in the Technical and Implementation Documents as reasonably requested by Motorola so that it may perform its duties in accordance with the Performance Schedule and Statement of Work. If the Statement of Work so indicates, Motorola may assist Customer in the local building permit process.

7.2. SITE CONDITIONS. Customer will ensure that all work sites it provides will be safe, secure, and in compliance with all applicable industry and OSHA standards. To the extent applicable and unless the Statement of Work states to the contrary, Customer will ensure that these work sites have adequate: physical space; air conditioning and other environmental conditions; adequate and appropriate electrical power outlets, distribution, equipment and connections; and adequate telephone or other communication lines (including modem access and adequate interfacing networking capabilities), all for the installation, use and maintenance of the System. Before installing the Equipment or Software at a work site, Motorola may inspect the work site and advise Customer of any apparent deficiencies or non-conformities with the requirements of this Section. This Agreement is predicated upon normal soil conditions as defined by the version of E.I.A. standard RS-222 in effect on the Effective Date.

7.3. SITE ISSUES. If a Party determines that the sites identified in the Technical and Implementation Documents are no longer available or desired, or if subsurface, structural, adverse environmental or latent conditions at any site differ from those indicated in the Technical and Implementation Documents, the Parties will promptly investigate the conditions and will select replacement sites or adjust the installation plans and specifications as necessary. If change in sites or adjustment to the installation plans and specifications causes a change in the cost or time to perform, the Parties will equitably amend the Contract Price, Performance Schedule, or both, by a change order.

Section 8 TRAINING

Any training to be provided by Motorola to Customer will be described in the applicable Statement of

Work. Customer will notify Motorola immediately if a date change for a scheduled training program is required. If Motorola incurs additional costs because Customer reschedules a training program less than thirty (30) days before its scheduled start date, Motorola may recover these additional costs.

Section 9 SYSTEM ACCEPTANCE

9.1. COMMENCEMENT OF ACCEPTANCE TESTING. Motorola will provide to Customer at least ten (10) days notice before the Acceptance Tests commence. System testing will occur only in accordance with the Acceptance Test Plan.

9.2. SYSTEM ACCEPTANCE. System Acceptance will occur upon successful completion of the Acceptance Tests. Upon System Acceptance, the Parties will memorialize this event by promptly executing a System Acceptance Certificate. If the Acceptance Test Plan includes separate tests for individual Subsystems or phases of the System, acceptance of the individual Subsystem or phase will occur upon the successful completion of the Acceptance Tests for the Subsystem or phase, and the Parties will promptly execute an acceptance certificate for the Subsystem or phase. If Customer believes the System has failed the completed Acceptance Tests, Customer will provide to Motorola a written notice that includes the specific details of the failure. If Customer does not provide to Motorola a failure notice within thirty (30) days after completion of the Acceptance Tests, System Acceptance will be deemed to have occurred as of the completion of the Acceptance Tests. Minor omissions or variances in the System that do not materially impair the operation of the System as a whole will not postpone System Acceptance or Subsystem acceptance, but will be corrected according to a mutually agreed schedule.

9.3. BENEFICIAL USE. Customer acknowledges that Motorola's ability to perform its implementation and testing responsibilities may be impeded if Customer begins using the System before System Acceptance. Therefore, Customer will not commence Beneficial Use before System Acceptance without Motorola's prior written authorization, which will not be unreasonably withheld. Motorola is not responsible for System performance deficiencies that occur during unauthorized Beneficial Use. Upon commencement of Beneficial Use, Customer assumes responsibility for the use and operation of the System.

9.4. FINAL PROJECT ACCEPTANCE. Final Project Acceptance will occur after System Acceptance when all deliverables and other work have been completed. When Final Project Acceptance occurs, the parties will promptly memorialize this final event by so indicating on the System Acceptance Certificate.

Section 10 REPRESENTATIONS AND WARRANTIES

10.1. SYSTEM FUNCTIONALITY. Motorola represents that the System will perform in accordance with the Specifications in all material respects. Upon System Acceptance or Beneficial Use, whichever occurs first, this System functionality representation is fulfilled. Motorola is not responsible for System performance deficiencies that are caused by ancillary equipment not furnished by Motorola which is attached to or used in connection with the System or for reasons or parties beyond Motorola's control, such as natural causes; the construction of a building that adversely affects the microwave path reliability or radio frequency (RF) coverage; the addition of frequencies at System sites that cause RF interference or intermodulation; or Customer changes to load usage or configuration outside the Specifications.

10.2. EQUIPMENT WARRANTY. During the Warranty Period, Motorola warrants that the Equipment under normal use and service will be free from material defects in materials and workmanship. If System Acceptance is delayed beyond six (6) months after shipment of the Equipment by events or causes beyond Motorola's control, this warranty expires eighteen (18) months after the shipment of the Equipment.

10.3. SOFTWARE WARRANTY. Except as described in the SwSP and unless otherwise stated in the Software License Agreement, during the Warranty Period, Motorola warrants the Software in accordance with the warranty terms set forth in the Software License Agreement and the provisions of this Section that are applicable to the Software. If System Acceptance is delayed beyond six (6) months after

shipment of the Motorola Software by events or causes beyond Motorola's control, this warranty expires eighteen (18) months after the shipment of the Motorola Software. Nothing in this Warranty provision is intended to conflict or modify the Software Support Policy. In the event of an ambiguity or conflict between the Software Warranty and Software Support Policy, the Software Support Policy governs.

10.4. EXCLUSIONS TO EQUIPMENT AND SOFTWARE WARRANTIES. These warranties do not apply to: (i) defects or damage resulting from: use of the Equipment or Software in other than its normal, customary, and authorized manner; accident, liquids, neglect, or acts of God; testing, maintenance, disassembly, repair, installation, alteration, modification, or adjustment not provided or authorized in writing by Motorola; Customer's failure to comply with all applicable industry and OSHA standards; (ii) breakage of or damage to antennas unless caused directly by defects in material or workmanship; (iii) Equipment that has had the serial number removed or made illegible; (iv) batteries (because they carry their own separate limited warranty) or consumables; (v) freight costs to ship Equipment to the repair depot; (vi) scratches or other cosmetic damage to Equipment surfaces that does not affect the operation of the Equipment; and (vii) normal or customary wear and tear.

10.5. SERVICE WARRANTY. During the Warranty Period, Motorola warrants that the Services will be provided in a good and workmanlike manner and will conform in all material respects to the applicable Statement of Work. Services will be free of defects in materials and workmanship for a period of ninety (90) days from the date the performance of the Services are completed. Customer acknowledges that the Deliverables may contain recommendations, suggestions or advice from Motorola to Customer (collectively, "recommendations"). Motorola makes no warranties concerning those recommendations, and Customer alone accepts responsibility for choosing whether and how to implement the recommendations and the results to be realized from implementing them.

10.6. WARRANTY CLAIMS. To assert a warranty claim, Customer must notify Motorola in writing of the claim before the expiration of the Warranty Period. Upon receipt of this notice, Motorola will investigate the warranty claim. If this investigation confirms a valid Equipment or Software warranty claim, Motorola will (at its option and at no additional charge to Customer) repair the defective Equipment or Motorola Software, replace it with the same or equivalent product, or refund the price of the defective Equipment or Motorola Software. These actions will be the full extent of Motorola's liability for the warranty claim. In the event of a valid Services warranty claim, Customer's sole remedy is to require Motorola to re-perform the non-conforming Service or to refund, on a pro-rata basis, the fees paid for the non-conforming Service. If this investigation indicates the warranty claim is not valid, then Motorola may invoice Customer for responding to the claim on a time and materials basis using Motorola's then current labor rates. Repaired or replaced product is warranted for the balance of the original applicable warranty period. All replaced products or parts will become the property of Motorola.

10.7. ORIGINAL END USER IS COVERED. These express limited warranties are extended by Motorola to the original user purchasing the System or Services for commercial, industrial, or governmental use only, and are not assignable or transferable.

10.8. DISCLAIMER OF OTHER WARRANTIES. THESE WARRANTIES ARE THE COMPLETE WARRANTIES FOR THE EQUIPMENT AND MOTOROLA SOFTWARE PROVIDED UNDER THIS AGREEMENT AND ARE GIVEN IN LIEU OF ALL OTHER WARRANTIES. MOTOROLA DISCLAIMS ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.

Section 11 DELAYS

11.1. FORCE MAJEURE. Neither Party will be liable for its non-performance or delayed performance if caused by a Force Majeure. A Party that becomes aware of a Force Majeure that will significantly delay performance will notify the other Party promptly (but in no event later than fifteen days) after it discovers the Force Majeure. If a Force Majeure occurs, the Parties will execute a change order to extend the Performance Schedule or applicable Addenda for a time period that is reasonable under the

circumstances.

11.2. **PERFORMANCE SCHEDULE DELAYS CAUSED BY CUSTOMER.** If Customer (including its other contractors) delays the Performance Schedule, it will make the promised payments according to the Payment schedule as if no delay occurred; and the Parties will execute a change order to extend the Performance Schedule and, if requested, compensate Motorola for all reasonable charges incurred because of the delay. Delay charges may include costs incurred by Motorola or its subcontractors for additional freight, warehousing and handling of Equipment; extension of the warranties; travel; suspending and re-mobilizing the work; additional engineering, project management, and standby time calculated at then current rates; and preparing and implementing an alternative implementation plan.

Section 12 DISPUTES

The Parties will use the following procedure to address any dispute arising under this Agreement (a "Dispute").

12.1. **GOVERNING LAW.** This Agreement will be governed by and construed in accordance with the laws of the State of North Carolina.

12.2. **NEGOTIATION.** Either Party may initiate the Dispute resolution procedures by sending a notice of Dispute ("Notice of Dispute"). The Parties will attempt to resolve the Dispute promptly through good faith negotiations including 1) timely escalation of the Dispute to executives who have authority to settle the Dispute and who are at a higher level of management than the persons with direct responsibility for the matter and 2) direct communication between the executives. If the Dispute has not been resolved within ten (10) days from the Notice of Dispute, the Parties will proceed to mediation.

12.3. **MEDIATION.** The Parties will choose an independent mediator within thirty (30) days of a notice to mediate from either Party ("Notice of Mediation"). Neither Party may unreasonably withhold consent to the selection of a mediator. If the Parties are unable to agree upon a mediator, either Party may request that American Arbitration Association nominate a mediator. Each Party will bear its own costs of mediation, but the Parties will share the cost of the mediator equally. Each Party will participate in the mediation in good faith and will be represented at the mediation by a business executive with authority to settle the Dispute.

12.4. **LITIGATION, VENUE and JURISDICTION.** If a Dispute remains unresolved for sixty (60) days after receipt of the Notice of Mediation, either Party may then submit the Dispute to a court of competent jurisdiction in the State of North Carolina. Each Party irrevocably agrees to submit to the exclusive jurisdiction of the courts in such state over any claim or matter arising under or in connection with this Agreement.

12.5. **CONFIDENTIALITY.** All communications pursuant to subsections 12.2 and 12.3 will be treated as compromise and settlement negotiations for purposes of applicable rules of evidence and any additional confidentiality protections provided by applicable law. The use of these Dispute resolution procedures will not be construed under the doctrines of laches, waiver or estoppel to affect adversely the rights of either Party.

Section 13 DEFAULT AND TERMINATION

13.1. **DEFAULT BY A PARTY.** If either Party fails to perform a material obligation under this Agreement, the other Party may consider the non-performing Party to be in default (unless a Force Majeure causes the failure) and may assert a default claim by giving the non-performing Party a written and detailed notice of default. Except for a default by Customer for failing to pay any amount when due under this Agreement which must be cured immediately, the defaulting Party will have thirty (30) days after receipt of the notice of default to either cure the default or, if the default is not curable within thirty (30) days, provide a written cure plan. The defaulting Party will begin implementing the cure plan immediately after receipt of notice by the other Party that it approves the plan. If Customer is the

defaulting Party, Motorola may stop work on the project until it approves the Customer's cure plan.

13.2. **FAILURE TO CURE.** If a defaulting Party fails to cure the default as provided above in Section 13.1, unless otherwise agreed in writing, the non-defaulting Party may terminate any unfulfilled portion of this Agreement. In the event of termination for default, the defaulting Party will promptly return to the non-defaulting Party any of its Confidential Information. If Customer is the non-defaulting Party, terminates this Agreement as permitted by this Section, and completes the System through a third Party, Customer may as its exclusive remedy recover from Motorola reasonable costs incurred to complete the System to a capability not exceeding that specified in this Agreement less the unpaid portion of the Contract Price. Customer will mitigate damages and provide Motorola with detailed invoices substantiating the charges. In the event Customer elects to terminate this Agreement for any reason other than default, Customer shall pay Motorola for the conforming Equipment and/or Software delivered and all services performed.

Section 14 INDEMNIFICATION

14.1. **GENERAL INDEMNITY BY Motorola.** Motorola will indemnify and hold Customer harmless from any and all liability, expense, judgment, suit, cause of action, or demand for personal injury, death, or direct damage to tangible property which may accrue against Customer to the extent it is caused by the negligence of Motorola, its subcontractors, or their employees or agents, while performing their duties under this Agreement, if Customer gives Motorola prompt, written notice of any claim or suit. Customer will cooperate with Motorola in its defense or settlement of the claim or suit. This Section sets forth the full extent of Motorola's general indemnification of Customer from liabilities that are in any way related to Motorola's performance under this Agreement.

14.2. **GENERAL INDEMNITY BY CUSTOMER.** To the extent allowed by law, Customer will indemnify and hold Motorola harmless from any and all liability, expense, judgment, suit, cause of action, or demand for personal injury, death, or direct damage to tangible property which may accrue against Motorola to the extent it is caused by the negligence of Customer, its other contractors, or their employees or agents, while performing their duties under this Agreement, if Motorola gives Customer prompt, written notice of any the claim or suit. Motorola will cooperate with Customer in its defense or settlement of the claim or suit. This Section sets forth the full extent of Customer's general indemnification of Motorola from liabilities that are in any way related to Customer's performance under this Agreement.

14.3. PATENT AND COPYRIGHT INFRINGEMENT.

14.3.1. Motorola will defend at its expense any suit brought against Customer to the extent it is based on a third-party claim alleging that the Equipment manufactured by Motorola or the Motorola Software ("Motorola Product") directly infringes a United States patent or copyright ("Infringement Claim"). Motorola's duties to defend and indemnify are conditioned upon: Customer promptly notifying Motorola in writing of the Infringement Claim; Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and Customer providing to Motorola cooperation and, if requested by Motorola, reasonable assistance in the defense of the Infringement Claim. In addition to Motorola's obligation to defend, and subject to the same conditions, Motorola will pay all damages finally awarded against Customer by a court of competent jurisdiction for an Infringement Claim or agreed to, in writing, by Motorola in settlement of an Infringement Claim.

14.3.2 If an Infringement Claim occurs, or in Motorola's opinion is likely to occur, Motorola may at its option and expense: (a) procure for Customer the right to continue using the Motorola Product; (b) replace or modify the Motorola Product so that it becomes non-infringing while providing functionally equivalent performance; or (c) accept the return of the Motorola Product and grant Customer a credit for the Motorola Product, less a reasonable charge for depreciation. The depreciation amount will be calculated based upon generally accepted accounting standards.

14.3.3 Motorola will have no duty to defend or indemnify for any Infringement Claim that is based upon: (a) the combination of the Motorola Product with any software, apparatus or device not furnished by Motorola; (b) the use of ancillary equipment or software not furnished by Motorola and that is attached to

or used in connection with the Motorola Product; (c) Motorola Product designed or manufactured in accordance with Customer's designs, specifications, guidelines or instructions, if the alleged infringement would not have occurred without such designs, specifications, guidelines or instructions; (d) a modification of the Motorola Product by a party other than Motorola; (e) use of the Motorola Product in a manner for which the Motorola Product was not designed or that is inconsistent with the terms of this Agreement; or (f) the failure by Customer to install an enhancement release to the Motorola Software that is intended to correct the claimed infringement. In no event will Motorola's liability resulting from its indemnity obligation to Customer extend in any way to royalties payable on a per use basis or the Customer's revenues, or any royalty basis other than a reasonable royalty based upon revenue derived by Motorola from Customer from sales or license of the infringing Motorola Product.

14.3.4. This Section 14 provides Customer's sole and exclusive remedies and Motorola's entire liability in the event of an Infringement Claim. Customer has no right to recover and Motorola has no obligation to provide any other or further remedies, whether under another provision of this Agreement or any other legal theory or principle, in connection with an Infringement Claim. In addition, the rights and remedies provided in this Section 14 are subject to and limited by the restrictions set forth in Section 15.

Section 15 LIMITATION OF LIABILITY

Except for personal injury or death, Motorola's total liability, whether for breach of contract, warranty, negligence, strict liability in tort, indemnification, or otherwise, will be limited to the direct damages recoverable under law, but not to exceed the price of the Equipment, Software, or implementation and other one-time Services with respect to which losses or damages are claimed. With respect to all subscription or other ongoing Services and unless as otherwise provided under the applicable Addenda, Motorola's total liability will be limited to the direct damages recoverable under law, but not to exceed the price of twelve (12) months of Services preceding the incident giving rise to the claim. ALTHOUGH THE PARTIES ACKNOWLEDGE THE POSSIBILITY OF SUCH LOSSES OR DAMAGES, THEY AGREE THAT MOTOROLA WILL NOT BE LIABLE FOR ANY COMMERCIAL LOSS, INCONVENIENCE, LOSS OF USE, LOSS TIME, DATA, GOODWILL, REVENUES, PROFITS OR SAVINGS; OR OTHER SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO OR ARISING FROM THIS AGREEMENT, THE SALE OR USE OF THE EQUIPMENT OR SOFTWARE, OR THE PERFORMANCE OF SERVICES BY MOTOROLA PURSUANT TO THIS AGREEMENT. This limitation of liability provision survives the expiration or termination of the Agreement and applies notwithstanding any contrary provision. No action for contract breach or otherwise relating to the transactions contemplated by this Agreement may be brought more than one (1) year after the accrual of the cause of action, except for money due upon an open account.

Section 16 CONFIDENTIALITY AND PROPRIETARY RIGHTS

16.1. CONFIDENTIAL INFORMATION.

16.1.1. Each party is a disclosing party ("Discloser") and a receiving party ("Recipient") under this Agreement. All Deliverables will be deemed to be Motorola's Confidential Information. During the term of this Agreement and for a period of three (3) years from the expiration or termination of this Agreement, Recipient will (i) not disclose Confidential Information to any third party; (ii) restrict disclosure of Confidential Information to only those employees (including, but not limited to, employees of any wholly owned subsidiary, a parent company, any other wholly owned subsidiaries of the same parent company), agents or consultants who must be directly involved with the Confidential Information for the purpose and who are bound by confidentiality terms substantially similar to those in this Agreement; (iii) not copy, reproduce, reverse engineer, decompile, or disassemble any Confidential Information; (iv) use the same degree of care as for its own information of like importance, but at least use reasonable care, in safeguarding against disclosure of Confidential Information; (v) promptly notify Discloser upon discovery of any unauthorized use or disclosure of the Confidential Information and take reasonable steps to regain possession of the Confidential Information and prevent further unauthorized actions or other breach of this Agreement; and (vi) only use the Confidential Information as needed to fulfill this Agreement.

16.1.2. Recipient is not obligated to maintain as confidential, Confidential Information that Recipient can demonstrate by documentation (i) is now available or becomes available to the public without breach of this agreement; (ii) is explicitly approved for release by written authorization of Discloser; (iii) is lawfully obtained from a third party or parties without a duty of confidentiality; (iv) is known to the Recipient prior to such disclosure; or (v) is independently developed by Recipient without the use of any of Discloser's Confidential Information or any breach of this Agreement.

16.1.3. All Confidential Information remains the property of the Discloser and will not be copied or reproduced without the express written permission of the Discloser, except for copies that are absolutely necessary in order to fulfill this Agreement. Within ten (10) days of receipt of Discloser's written request, Recipient will return all Confidential Information to Discloser along with all copies and portions thereof, or certify in writing that all such Confidential Information has been destroyed. However, Recipient may retain one (1) archival copy of the Confidential Information that it may use only in case of a dispute concerning this Agreement. No license, express or implied, in the Confidential Information is granted other than to use the Confidential Information in the manner and to the extent authorized by this Agreement. The Discloser warrants that it is authorized to disclose any Confidential Information it discloses pursuant to this Agreement.

16.2. PRESERVATION OF MOTOROLA'S PROPRIETARY RIGHTS. Motorola, the third party manufacturer of any Equipment, and the copyright owner of any Non-Motorola Software own and retain all of their respective Proprietary Rights in the Equipment and Software, and nothing in this Agreement is intended to restrict their Proprietary Rights. All intellectual property developed, originated, or prepared by Motorola in connection with providing to Customer the Equipment, Software, or related services remain vested exclusively in Motorola, and this Agreement does not grant to Customer any shared development rights of intellectual property. Except as explicitly provided in the Software License Agreement, Motorola does not grant to Customer, either directly or by implication, estoppel, or otherwise, any right, title or interest in Motorola's Proprietary Rights. Customer will not modify, disassemble, peel components, decompile, otherwise reverse engineer or attempt to reverse engineer, derive source code or create derivative works from, adapt, translate, merge with other software, reproduce, distribute, sublicense, sell or export the Software, or permit or encourage any third party to do so. The preceding sentence does not apply to Open Source Software which is governed by the standard license of the copyright owner.

16.3 VOLUNTARY DISCLOSURE. Except as required to fulfill its obligations under this Agreement, Motorola will have no obligation to provide Customer with access to its Confidential Information and/or proprietary information. Under no circumstances will Motorola be required to provide any data related to cost and pricing.

16.4 DATA AND FEEDBACK.

16.4.1 To the extent permitted by law, Customer owns all right, title and interest in System Data created solely by it or its agents (hereafter, "Customer Data"), and grants to Motorola the right to use, host, cache, store, reproduce, copy, modify, combine, analyze, create derivatives from, communicate, transmit, publish, display, and distribute such Customer Data.

16.4.2 Motorola owns all right, title and interest in data resulting from System Data that is or has been transformed, altered, processed, aggregated, correlated or operated on (hereafter, "Derivative Data").

16.4.3 Any Feedback given by Customer is and will be entirely voluntary and, even if designated as confidential, will not create any confidentiality obligation for Motorola. Motorola will be free to use, reproduce, license or otherwise distribute and exploit the Feedback without any obligation to Customer. Customer acknowledges that Motorola's receipt of the Feedback does not imply or create recognition by Motorola of either the novelty or originality of any idea. The parties further agree that all fixes, modifications and improvements made to Motorola products or services conceived of or made by Motorola that are based, either in whole or in part, on the Feedback are the exclusive property of Motorola and all right, title and interest in and to such fixes, modifications or improvements to the Motorola product or service will vest solely in Motorola.

Section 17 GENERAL

17.1. **TAXES.** The Contract Price does not include any excise, sales, lease, use, property, or other taxes, assessments or duties, all of which will be paid by Customer except as exempt by law. If Motorola is required to pay any of these taxes, Motorola will send an invoice to Customer and Customer will pay to Motorola the amount of the taxes (including any interest and penalties) within thirty (30) days after the date of the invoice. Customer will be solely responsible for reporting the Equipment for personal property tax purposes, and Motorola will be solely responsible for reporting taxes on its income or net worth.

17.2. **ASSIGNABILITY AND SUBCONTRACTING.** Except as provided herein, neither Party may assign this Agreement or any of its rights or obligations hereunder without the prior written consent of the other Party, which consent will not be unreasonably withheld. Any attempted assignment, delegation, or transfer without the necessary consent will be void. Notwithstanding the foregoing, Motorola may assign this Agreement to any of its affiliates or its right to receive payment without the prior consent of Customer. In addition, in the event Motorola separates one or more of its businesses (each a "Separated Business"), whether by way of a sale, establishment of a joint venture, spin-off or otherwise (each a "Separation Event"), Motorola may, without the prior written consent of the other Party and at no additional cost to Motorola, assign this Agreement such that it will continue to benefit the Separated Business and its affiliates (and Motorola and its affiliates, to the extent applicable) following the Separation Event. Motorola may subcontract any of the work, but subcontracting will not relieve Motorola of its duties under this Agreement.

17.3. **WAIVER.** Failure or delay by either Party to exercise a right or power under this Agreement will not be a waiver of the right or power. For a waiver of a right or power to be effective, it must be in a writing signed by the waiving Party. An effective waiver of a right or power will not be construed as either a future or continuing waiver of that same right or power, or the waiver of any other right or power.

17.4. **SEVERABILITY.** If a court of competent jurisdiction renders any part of this Agreement invalid or unenforceable, that part will be severed and the remainder of this Agreement will continue in full force and effect.

17.5. **INDEPENDENT CONTRACTORS.** Each Party will perform its duties under this Agreement as an independent contractor. The Parties and their personnel will not be considered to be employees or agents of the other Party. Nothing in this Agreement will be interpreted as granting either Party the right or authority to make commitments of any kind for the other. This Agreement will not constitute, create, or be interpreted as a joint venture, partnership or formal business organization of any kind.

17.6. **HEADINGS AND SECTION REFERENCES.** The section headings in this Agreement are inserted only for convenience and are not to be construed as part of this Agreement or as a limitation of the scope of the particular section to which the heading refers. This Agreement will be fairly interpreted in accordance with its terms and conditions and not for or against either Party.

17.7. **NOTICES.** Notices required under this Agreement to be given by one Party to the other must be in writing and either personally delivered or sent to the address provided by the other Party by certified mail, return receipt requested and postage prepaid (or by a recognized courier service, such as Federal Express, UPS, or DHL), or by facsimile with correct answerback received, and will be effective upon receipt.

17.8. **COMPLIANCE WITH APPLICABLE LAWS.** Each Party will comply with all applicable federal, state, and local laws, regulations and rules concerning the performance of this Agreement or use of the System. Customer will obtain and comply with all Federal Communications Commission ("FCC") licenses and authorizations required for the installation, operation and use of the System before the scheduled installation of the Equipment. Although Motorola might assist Customer in the preparation of its FCC license applications, neither Motorola nor any of its employees is an agent or representative of Customer in FCC or other matters.

17.9 FUTURE REGULATORY REQUIREMENTS. The Parties acknowledge and agree that this is an evolving technological area and therefore, laws and regulations regarding Services and use of Solution may change. Changes to existing Services or the Solution required to achieve regulatory compliance may be available for an additional fee. Any required changes may also impact the price for Services.

17.10. AUTHORITY TO EXECUTE AGREEMENT. Each Party represents that it has obtained all necessary approvals, consents and authorizations to enter into this Agreement and to perform its duties under this Agreement; the person executing this Agreement on its behalf has the authority to do so; upon execution and delivery of this Agreement by the Parties, it is a valid and binding contract, enforceable in accordance with its terms; and the execution, delivery, and performance of this Agreement does not violate any bylaw, charter, regulation, law or any other governing authority of the Party.

17.11. ADMINISTRATOR LEVEL ACCOUNT ACCESS. If applicable to the type of System purchased by Customer, Motorola will provide Customer with Administrative User Credentials. Customer agrees to only grant access to the Administrative User Credentials to those personnel with the training and experience to correctly use them. Customer is responsible for protecting Administrative User Credentials from disclosure and maintaining Credential validity by, among other things, updating passwords when required. Customer may be asked to provide valid Administrative User Credentials when in contact with Motorola System support personnel. Customer understands that changes made as the Administrative User can significantly impact the performance of the System. Customer agrees that it will be solely responsible for any negative impact on the System or its users by any such changes. System issues occurring as a result of changes made using the Administrative User Credentials may impact Motorola's ability to perform Services or other obligations under the Agreement. In such cases, a revision to the appropriate provisions of the Agreement, including the Statement of Work, may be necessary. Exhibit A MOTOROLA SOFTWARE LICENSE AGREEMENT

This Exhibit A Motorola Software License Agreement ("Agreement") is between Motorola Solutions, Inc. ("Motorola") and Davie County, North Carolina ("Licensee"). For good and valuable consideration, the parties agree as follows:

Section 1 DEFINITIONS

1.1 "Designated Products" means products provided by Motorola to Licensee with which or for which the Software and Documentation is licensed for use.

1.2 "Documentation" means product and software documentation that specifies technical and performance features and capabilities, and the user, operation and training manuals for the Software (including all physical or electronic media upon which such information is provided).

1.3 "Open Source Software" means software with either freely obtainable source code, license for modification, or permission for free distribution.

1.4 "Open Source Software License" means the terms or conditions under which the Open Source Software is licensed.

1.5 "Primary Agreement" means the agreement to which this exhibit is attached.

1.6 "Security Vulnerability" means a flaw or weakness in system security procedures, design, implementation, or internal controls that could be exercised (accidentally triggered or intentionally exploited) and result in a security breach such that data is compromised, manipulated or stolen or the system damaged.

1.7 "Software" (i) means proprietary software in object code format, and adaptations, translations, de-compilations, disassemblies, emulations, or derivative works of such software; (ii) means any modifications, enhancements, new versions and new releases of the software provided by Motorola; and (iii) may contain one or more items of software owned by a third party supplier. The term "Software" does not include any third party software provided under separate license or third party software not licensable under the terms of this Agreement.

Section 2 SCOPE

Motorola and Licensee enter into this Agreement in connection with Motorola's delivery of certain proprietary software or products containing embedded or pre-loaded proprietary software, or both. This Agreement contains the terms and conditions of the license Motorola is providing to Licensee, and Licensee's use of the proprietary software and affiliated documentation.

Section 3 GRANT OF LICENSE

3.1. Subject to the provisions of this Agreement and the payment of applicable license fees, Motorola grants to Licensee a personal, limited, non-transferable (except as permitted in Section 7) and non-exclusive license under Motorola's copyrights and Confidential Information (as defined in the Primary Agreement) embodied in the Software to use the Software, in object code form, and the Documentation solely in connection with Licensee's use of the Designated Products. This Agreement does not grant any rights to source code.

3.2. If the Software licensed under this Agreement contains or is derived from Open Source Software, the terms and conditions governing the use of such Open Source Software are in the Open Source Software Licenses of the copyright owner and not this Agreement. If there is a conflict between the terms and conditions of this Agreement and the terms and conditions of the Open Source Software Licenses

Attachment: Motorola_Contract (Motorola Contract)

governing Licensee's use of the Open Source Software, the terms and conditions of the license grant of the applicable Open Source Software Licenses will take precedence over the license grants in this Agreement. If requested by Licensee, Motorola will use commercially reasonable efforts to: (i) determine whether any Open Source Software is provided under this Agreement; and (ii) identify the Open Source Software (or specify where that license may be found).

3.3 TO THE EXTENT, IF ANY, THAT THERE IS A SEPARATE LICENSE AGREEMENT PACKAGED WITH, OR PROVIDED ELECTRONICALLY WITH, A PARTICULAR PRODUCT THAT BECOMES EFFECTIVE ON AN ACT OF ACCEPTANCE BY THE END USER, THEN THAT AGREEMENT SUPERSEDES THE SOFTWARE LICENSE AGREEMENT AS TO THE END USER OF EACH SUCH PRODUCT.

Section 4 LIMITATIONS ON USE

4.1. Licensee may use the Software only for Licensee's internal business purposes and only in accordance with the Documentation. Any other use of the Software is strictly prohibited. Without limiting the general nature of these restrictions, Licensee will not make the Software available for use by third parties on a "time sharing," "application service provider," or "service bureau" basis or for any other similar commercial rental or sharing arrangement.

4.2. Licensee will not, and will not allow or enable any third party to: (i) reverse engineer, disassemble, peel components, decompile, reprogram or otherwise reduce the Software or any portion to a human perceptible form or otherwise attempt to recreate the source code; (ii) modify, adapt, create derivative works of, or merge the Software; (iii) copy, reproduce, distribute, lend, or lease the Software or Documentation to any third party, grant any sublicense or other rights in the Software or Documentation to any third party, or take any action that would cause the Software or Documentation to be placed in the public domain; (iv) remove, or in any way alter or obscure, any copyright notice or other notice of Motorola's proprietary rights; (v) provide, copy, transmit, disclose, divulge or make the Software or Documentation available to, or permit the use of the Software by any third party or on any machine except as expressly authorized by this Agreement; or (vi) use, or permit the use of, the Software in a manner that would result in the production of a copy of the Software solely by activating a machine containing the Software. Licensee may make one copy of Software to be used solely for archival, back-up, or disaster recovery purposes; *provided* that Licensee may not operate that copy of the Software at the same time as the original Software is being operated. Licensee may make as many copies of the Documentation as it may reasonably require for the internal use of the Software.

4.3. Unless otherwise authorized by Motorola in writing, Licensee will not, and will not enable or allow any third party to: (i) install a licensed copy of the Software on more than one unit of a Designated Product; or (ii) copy onto or transfer Software installed in one unit of a Designated Product onto one other device. Licensee may temporarily transfer Software installed on a Designated Product to another device if the Designated Product is inoperable or malfunctioning, if Licensee provides written notice to Motorola of the temporary transfer and identifies the device on which the Software is transferred. Temporary transfer of the Software to another device must be discontinued when the original Designated Product is returned to operation and the Software must be removed from the other device. Licensee must provide prompt written notice to Motorola at the time temporary transfer is discontinued.

4.4 Licensee will maintain, during the term of this Agreement and for a period of two years thereafter, accurate records relating to this license grant to verify compliance with this Agreement. Motorola or an independent third party ("Auditor") may inspect Licensee's premises, books and records, upon reasonable prior notice to Licensee, during Licensee's normal business hours and subject to Licensee's facility and security regulations. Motorola is responsible for the payment of all expenses and costs of the Auditor. Any information obtained by Motorola and the Auditor will be kept in strict confidence by Motorola and the Auditor and used solely for the purpose of verifying Licensee's compliance with the terms of this Agreement.

Section 5 OWNERSHIP AND TITLE

Motorola, its licensors, and its suppliers retain all of their proprietary rights in any form in and to the Software and Documentation, including, but not limited to, all rights in patents, patent applications, inventions, copyrights, trademarks, trade secrets, trade names, and other proprietary rights in or relating to the Software and Documentation (including any corrections, bug fixes, enhancements, updates, modifications, adaptations, translations, de-compilations, disassemblies, emulations to or derivative works from the Software or Documentation, whether made by Motorola or another party, or any improvements that result from Motorola's processes or, provision of information services). No rights are granted to Licensee under this Agreement by implication, estoppel or otherwise, except for those rights which are expressly granted to Licensee in this Agreement. All intellectual property developed, originated, or prepared by Motorola in connection with providing the Software, Designated Products, Documentation or related services, remains vested exclusively in Motorola, and Licensee will not have any shared development or other intellectual property rights.

Section 6 LIMITED WARRANTY; DISCLAIMER OF WARRANTY

6.1. Unless otherwise stated in the Primary Agreement, the commencement date and the term of the Software warranty will be a period of ninety (90) days from Motorola's shipment of the Software (the "Warranty Period"). If Licensee is not in breach of any of its obligations under this Agreement, Motorola warrants that the unmodified Software, when used properly and in accordance with the Documentation and this Agreement, will be free from a reproducible defect that eliminates the functionality or successful operation of a feature critical to the primary functionality or successful operation of the Software. Whether a defect occurs will be determined by Motorola solely with reference to the Documentation. Motorola does not warrant that Licensee's use of the Software or the Designated Products will be uninterrupted, error-free, completely free of Security Vulnerabilities, or that the Software or the Designated Products will meet Licensee's particular requirements. Motorola makes no representations or warranties with respect to any third party software included in the Software. Notwithstanding, any warranty provided by a copyright owner in its standard license terms will flow through to Licensee for third party software provided by Motorola.

6.2 Motorola's sole obligation to Licensee and Licensee's exclusive remedy under this warranty is to use reasonable efforts to remedy any material Software defect covered by this warranty. These efforts will involve either replacing the media or attempting to correct significant, demonstrable program or documentation errors or Security Vulnerabilities. If Motorola cannot correct the defect within a reasonable time, then at Motorola's option, Motorola will replace the defective Software with functionally-equivalent Software, license to Licensee substitute Software which will accomplish the same objective, or terminate the license and refund the Licensee's paid license fee.

6.3. Warranty claims are described in the Primary Agreement.

6.4. The express warranties set forth in this Section 6 are in lieu of, and Motorola disclaims, any and all other warranties (express or implied, oral or written) with respect to the Software or Documentation, including, without limitation, any and all implied warranties of condition, title, non-infringement, merchantability, or fitness for a particular purpose or use by Licensee (whether or not Motorola knows, has reason to know, has been advised, or is otherwise aware of any such purpose or use), whether arising by law, by reason of custom or usage of trade, or by course of dealing. In addition, Motorola disclaims any warranty to any person other than Licensee with respect to the Software or Documentation.

Section 7 TRANSFERS

Licensee will not transfer the Software or Documentation to any third party without Motorola's prior written consent. Motorola's consent may be withheld at its discretion and may be conditioned upon transferee paying all applicable license fees and agreeing to be bound by this Agreement. If the Designated Products are Motorola's radio products and Licensee transfers ownership of the Motorola radio products to a third party, Licensee may assign its right to use the Software (other than CPS and Motorola's

FLASHport® software) which is embedded in or furnished for use with the radio products and the related Documentation; *provided* that Licensee transfers all copies of the Software and Documentation to the transferee, and Licensee and the transferee sign a transfer form to be provided by Motorola upon request, obligating the transferee to be bound by this Agreement.

Section 8 TERM AND TERMINATION

8.1 Licensee's right to use the Software and Documentation will begin when the Primary Agreement is signed by both parties and will continue for the life of the Designated Products with which or for which the Software and Documentation have been provided by Motorola, unless Licensee breaches this Agreement, in which case this Agreement and Licensee's right to use the Software and Documentation may be terminated immediately upon notice by Motorola.

8.2 Within thirty (30) days after termination of this Agreement, Licensee must certify in writing to Motorola that all copies of the Software have been removed or deleted from the Designated Products and that all copies of the Software and Documentation have been returned to Motorola or destroyed by Licensee and are no longer in use by Licensee.

8.3 Licensee acknowledges that Motorola made a considerable investment of resources in the development, marketing, and distribution of the Software and Documentation and that Licensee's breach of this Agreement will result in irreparable harm to Motorola for which monetary damages would be inadequate. If Licensee breaches this Agreement, Motorola may terminate this Agreement and be entitled to all available remedies at law or in equity (including immediate injunctive relief and repossession of all non-embedded Software and associated Documentation unless Licensee is a Federal agency of the United States Government).

Section 9 COMMERCIAL COMPUTER SOFTWARE

9.1 *This Section 9 only applies to U.S. Government end users.* The Software, Documentation and updates are commercial items as that term is defined at 48 C.F.R. Part 2.101, consisting of "commercial computer software" and "computer software documentation" as such terms are defined in 48 C.F.R. Part 252.227-7014(a)(1) and 48 C.F.R. Part 252.227-7014(a)(5), and used in 48 C.F.R. Part 12.212 and 48 C.F.R. Part 227.7202, as applicable. Consistent with 48 C.F.R. Part 12.212, 48 C.F.R. Part 252.227-7015, 48 C.F.R. Part 227.7202-1 through 227.7202-4, 48 C.F.R. Part 52.227-19, and other relevant sections of the Code of Federal Regulations, as applicable, the Software, Documentation and Updates are distributed and licensed to U.S. Government end users: (i) only as commercial items, and (ii) with only those rights as are granted to all other end users pursuant to the terms and conditions contained herein.

9.2 If Licensee is licensing Software for end use by the United States Government or a United States Government agency, Licensee may transfer such Software license, but only if: (i) Licensee transfers all copies of such Software and Documentation to such United States Government entity or interim transferee, and (ii) Licensee has first obtained from the transferee (if applicable) and ultimate end user an enforceable end user license agreement containing restrictions substantially identical to the ones contained in this Agreement. Except as stated in the foregoing, Licensee and any transferee(s) authorized by this subsection 9.2 may not otherwise use or transfer or make available any Motorola software to any third party nor permit any party to do so.

Section 10 CONFIDENTIALITY

Licensee acknowledges that the Software and Documentation contain Motorola's valuable proprietary and Confidential Information and are Motorola's trade secrets, and that the provisions in the Primary Agreement concerning Confidential Information apply.

Section 11 LIMITATION OF LIABILITY

The Limitation of Liability provision is described in the Primary Agreement.

Section 12 NOTICES

Notices are described in the Primary Agreement.

Section 13 GENERAL

13.1. COPYRIGHT NOTICES. The existence of a copyright notice on the Software will not be construed as an admission or presumption of publication of the Software or public disclosure of any trade secrets associated with the Software.

13.2. COMPLIANCE WITH LAWS. Licensee acknowledges that the Software is subject to the laws and regulations of the United States and Licensee will comply with all applicable laws and regulations, including export laws and regulations of the United States. Licensee will not, without the prior authorization of Motorola and the appropriate governmental authority of the United States, in any form export or re-export, sell or resell, ship or reship, or divert, through direct or indirect means, any item or technical data or direct or indirect products sold or otherwise furnished to any person within any territory for which the United States Government or any of its agencies at the time of the action, requires an export license or other governmental approval. Violation of this provision is a material breach of this Agreement.

13.3 FUTURE REGULATORY REQUIREMENTS. The Parties acknowledge and agree that this is an evolving technological area and therefore, laws and regulations regarding Services and use of Solution may change. Changes to existing Services or the Solution required to achieve regulatory compliance may be available for an additional fee. Any required changes may also impact the price for Services.

13.4. ASSIGNMENTS AND SUBCONTRACTING. Motorola may assign its rights or subcontract its obligations under this Agreement, or encumber or sell its rights in any Software, without prior notice to or consent of Licensee.

13.5. GOVERNING LAW. This Agreement is governed by the laws of the United States to the extent that they apply and otherwise by the internal substantive laws of the State of North Carolina. The terms of the U.N. Convention on Contracts for the International Sale of Goods do not apply. In the event that the Uniform Computer Information Transaction Act, any version of this Act, or a substantially similar law (collectively "UCITA") becomes applicable to a party's performance under this Agreement, UCITA does not govern any aspect of this Agreement or any license granted under this Agreement, or any of the parties' rights or obligations under this Agreement. The governing law will be that in effect prior to the applicability of UCITA.

13.6. THIRD PARTY BENEFICIARIES. This Agreement is entered into solely for the benefit of Motorola and Licensee. No third party has the right to make any claim or assert any right under this Agreement, and no third party is deemed a beneficiary of this Agreement. Notwithstanding the foregoing, any licensor or supplier of third party software included in the Software will be a direct and intended third party beneficiary of this Agreement.

13.7. SURVIVAL. Sections 4, 5, 6.4, 7, 8, 9, 10, 11 and 13 survive the termination of this Agreement.

13.8. ORDER OF PRECEDENCE. In the event of inconsistencies between this Exhibit and the Primary Agreement, the parties agree that this Exhibit prevails, only with respect to the specific subject matter of this Exhibit, and not the Primary Agreement or any other exhibit as it applies to any other subject matter.

13.9. SECURITY. Motorola uses reasonable means in the design and writing of its own Software and the acquisition of third party Software to limit Security Vulnerabilities. While no software can be guaranteed to be free from Security Vulnerabilities, if a Security Vulnerability is discovered, Motorola will take the steps set forth in Section 6 of this Agreement.

Exhibit B PAYMENT

Except for a payment that is due on the Effective Date, Customer will make payments to Motorola within thirty (30) days after the date of each invoice. Customer will make payments when due in the form of a check, cashier's check, or wire transfer drawn on a U.S. financial institution. If Customer has purchased additional Professional or Subscription services, payment will be in accordance with the applicable addenda. Payment for the System purchase will be in accordance with the following milestones.

System Purchase (excluding Subscribers, if applicable)

1. 25% of the Contract Price due upon contract execution (due upon effective date);
2. 60% of the Contract Price due upon shipment of equipment from Staging;
3. 10% of the Contract Price due upon installation of equipment; and
4. 5% of the Contract Price due upon Final Acceptance.

If Subscribers are purchased, 100% of the Subscriber Contract Price will be invoiced upon shipment (as shipped).

Motorola shall make partial shipments of equipment and will request payment upon shipment of such equipment. In addition, Motorola shall invoice for installations completed on a site-by-site basis or when professional services are completed, when applicable. The value of the equipment shipped/services performed will be determined by the value shipped/services performed as a percentage of the total milestone value. Unless otherwise specified, contract discounts are based upon all items proposed and overall system package. For invoicing purposes only, discounts will be applied proportionately to the FNE and Subscriber equipment values to total contract price. Overdue invoices will bear simple interest at the maximum allowable rate by state law.

For Lifecycle Support Plan and Subscription Based Services:

Motorola will invoice Customer annually in advance of each year of the plan.

The chart below outlines the hourly labor rates for Motorola System Integration resources to be used. The staffing requirements shall be multiplied by the appropriate rate per resource in the table below. The hourly labor rates are fully burdened. ISSUE/ACTION REQUESTED:

Resolution - Cooleemee Water Treatment Plan - 60% Design Workshop

BACKGROUND/PURPOSE OF REQUEST: Resolution - Cooleemee Water Treatment Plan - 60% Design Workshop

Hazen and Sawyer is designing the new Water Treatment Plant and has updated the cost opinion at the 60% design milestone for the project. The cost opinion is approximately \$1.9 million higher than at the 30% cost opinion. A significant portion of the cost increase is related to the decision to switch from a single-cell, pre-stressed concrete tanks design to a cast-in-place concrete clearwell with two cells (to provide additional reliability). The two-cell design allows for one cell to be taken out of service for maintenance, while providing some storage for disinfection and high service pump operations.

Increases in the cost of construction materials and equipment are also driving increased construction costs, due to: (1) Higher demand throughout the construction market for certain building materials, and (2) Lingering production issues related to COVID shutdowns of manufacturing facilities. It is possible some of the cost pressures related to production and supply issues may be resolved prior to project bidding.

Based on current cost estimates, additional funding of approximately \$5.2 million may be needed to fully fund the project. An application to the State Revolving Fund (SRF) is recommended to obtain additional SRF funding to fully fund the project. The County would not be obligated to accept the full funding award in the event that project bids are less than the funding award. The resolution authorizes the additional SRF grant application.

That Davie County, the **Applicant**, will arrange financing for all remaining costs of the project, if approved for a State loan or grant award.

That the **Applicant** will adopt and place into effect on or before completion of the project a schedule of fees and charges and other available funds which will provide adequate funds for proper operation, maintenance, and administration of the system and the repayment of all principal and interest on the debt.

That the governing body of the **Applicant** agrees to include in the loan agreement a provision authorizing the State Treasurer, upon failure of Davie County to make scheduled repayment of the loan, to withhold from Davie County any State funds that would otherwise be distributed to the local government unit in an amount sufficient to pay all sums then due and payable to the State as a repayment of the loan.

That the **Applicant** will provide for efficient operation and maintenance of the project on completion of construction thereof.

That David Bone, Davie County Manager, the **Authorized Official**, and successors so titled, is hereby authorized to execute and file an application on behalf of the **Applicant** with the State of North Carolina for a loan or grant to aid in the construction of the project described above.

Re: Project Cost Opinion Update at 60% Design

Hazen and Sawyer has updated the cost opinion at the 60% design milestone for Joint Water Supply Improvements Project. The cost opinion is approximately \$1.9 million higher than at the 30% cost opinion. A significant portion of the cost increase is related to the decision to switch from a single cell pre-stressed concrete tanks design to a cast in place concrete clearwell with two cells to provide additional reliability. The two-cell design allows for one cell to be taken out of service for maintenance while providing some storage for disinfection and high service pump operations. We are also observing cost increases for some construction materials and equipment. There are several drivers for cost increases, including:

- Higher demand throughout the construction market for certain building materials
- Lingering production issues related to COVID shutdowns of manufacturing facilities, the 2021 freeze in Texas affected a number of petroleum related facilities affecting PVC supply, and numerous resins for FRP materials or coating systems.

Hazen has updated costs for some items such as piping based on recent construction bids. We have also updated costs for equipment and other items based on recent budgetary quotes from suppliers. There is a lot of uncertainty in the marketplace so we would expect some continued volatility for some construction materials and equipment. It is possible that some of the cost pressures related to production and supply issues may be resolved prior to project bidding.

A summary of the current funding awards is in the table below. Additional funding of approximately \$5.2 million is needed to fully fund the project. An application to SRF is recommended to obtain additional SRF funding to fully fund the project. The County would not be obligated to accept the full funding award in the event that project bids are less than the funding award.
