8. Public Hearings

There were three Public Hearings:

1) Zoning Map Amendment - 2022-04 - Miller Tree Service

Planner II, Adam Barr presented the information about Miller Tree Service, Inc. who has applied to rezone approximately 6.77 acres from Residential Agricultural (R-A) to Highway Business (H-B). The subject properties are located at 327 and 337 Hillcrest Drive at the intersection of Hillcrest Dr and NC HWY 801 S. The properties are further described as Davie County Tax

Parcel F800000069 and F800000068. Mr. Barr stated the Planning Board voted a recommended approval by a 4-2 vote.

The Public Hearing was opened at 6:30 p.m. by the Chair. County Attorney, Ed Vogler, reviewed the rules for Public Hearing Comments to those in attendance.

1) Jake Miller of Miller Tree Service, spoke in favor of the zoning request as he wants to move his tree service to the property on Hillcrest Drive. He stated the business is currently located on Bailey Road. He is seeking a place to park his trucks and have an office for his business. Mr. Miller was asked why he did not request special use zoning; Miller stated he did not know this was an option. Miller plans to use a large portion of the land for parking. He also stated the majority will not be suitable for much more than a parking lot. He also stated the intent is to remodel the old farmhouse on the property and the driveway will be on Hillcrest Drive, not on 801.

2) Tom Browder - lifelong resident of Davie County and neighbor to this property does not want the re-zoning to occur. He does not feel this property is suitable for that type of business. He stated Hillcrest Drive is completely residential.

No one else came forward to speak and the Public Hearing was closed at 6:45 p.m. by the Chair.

Vice Chair Renegar made a motion to defer this item until the September 12, 2022 meeting. Commissioner Poindexter seconded the until next meeting September 12, 2022. The motion passed 3-0 (Renegar, Finney, Poindexter) (Chair Blakley has been recused from voting on this zoning request).

2) Zoning Map Amendment - 2022-05 - Delmar McDaniel

Planner II, Adam Barr presented the information about the zoning map amendment request from Delmar McDaniel who has applied to rezone approximately 2 acres from Residential 12 (R-12) to Highway Business (H-B). The subject properties are located at 2519 and 2531 US HWY 601 S. The properties are further described as Davie County Tax Parcel L5140A0021 and L5140A0022. Mr. Barr stated the area near this request is zoned predominantly r12 and the Planning Board voted unanimously for approval for this request.

The Public Hearing was opened at 6:49 p.m. by the Chair. County Attorney, Ed Vogler, reviewed the rules for Public Hearing Comments to those in attendance. No one came forward to speak. The Chair closed the Public Hearing at 6:50 p.m.

Commissioner Poindexter made a motion to approve as the proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections. Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The property's classification of Commercial/Mixed Use on the Comprehensive Plan Map.
2. The existing of Highway Business zoning in the vicinity.
3. The property's location along a major intersection.

Vice Chair Renegar seconded the motion. All were in favor and the motion passed 4-0 (Blakley, Renegar, Finney, Poindexter).

3) Zoning Text Amendment - Review of Text Amendment 155.001 Definitions - The Board will review a text amendment to the Zoning Ordinance in sections 155.001 Definitions. Planner II, Adam Barr spoke about the text amendment changes. He mentioned this amendment will allow for the expansion of items sold at businesses. The proposed definitions are as follows:

AGRIBUSINESS. Any individual, partnership, corporation or organization primarily supplying services or goods (such as equipment, feeds or supplies) to producers, or marketable agricultural products, including greenhouses, nurseries, farm cooperatives and the like, which are not otherwise specifically defined as agriculture by the North Carolina General Statutes. ***In addition, Agribusiness shall include the sale of farm and seafood food products and other agricultural products which are customarily sold at local "Farmer's markets" located throughout the States of Virginia, North Carolina and South Carolina and at Certified Farm Stand.***

AGRICULTURE. Land or structures primarily used for cultivating soils, producing crops, or raising livestock; the storage, processing or sale of products; or as otherwise defined by the North Carolina General Statutes. Structures customarily accessory to agricultural uses and located on the same parcel as an agricultural use shall be included in this definition. ***In addition, Agriculture shall include the sale of farm and seafood food products and other agricultural products which are customarily sold at local "Farmer's markets" located throughout the States of Virginia, North Carolina and South Carolina and at Certified Farm Stand.***

The Public Hearing was opened at 6:55 p.m. by the Chair. County Attorney, Ed Vogler, reviewed the rules for Public Hearing Comments to those in attendance. No one came forward to speak. The Public Hearing was closed at 6:56 p.m.

Commissioner Finney made a motion to approve the amendment to section 155.001 Definitions, Agribusiness and Agriculture as the amendment promotes public health, safety and general welfare; is consistent with all applicable adopted plans and the Board considers the action reasonable and in the public interest; that said approval furthers the goals, objectives, actions and policies of the Comprehensive Plan and Growth Enhancement Strategy by strengthening support for agricultural economic development. Commissioner Poindexter seconded the motion. All were in favor, and the motion passed 4-0 (Blakley, Renegar, Finney, Poindexter).

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential Agricultural.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Residential/Mixed-Use on the Davie County Land Use Category Map. The Residential/Mixed Use district is defined as single family residential development as well as other compatible land uses such as civic uses, limited retail services, and some higher intensity residential development (townhomes, duplexes, condominiums, etc.). Planned for areas near or adjacent to predominantly non-residential land use categories such as commercial or industrial.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Ensure that the location and design of parking and loading areas is well integrated into the overall development site and is designed to minimize negative visual and operational offsite impacts whenever practicable.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Secondary Growth Area. This area is characterized by transitional residential development is predominant in this area with major subdivisions scattered between agricultural and commercial land use patterns. Both public water and sewer infrastructure access is unlikely within the immediate future. The availability of large undeveloped tracts can substantially alter the development character of established residential areas.

The Growth Enhancement Strategy describes policies within the secondary growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Planning Board heard the request at their June 28th meeting and voted 4-2 to recommend approval of the request (see attached draft minutes and written recommendation).

XII. BOARD ACTION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The proposed zoning would be in harmony with the surrounding uses.
2. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is classified residential/mixed use on the 2019 plan, which allows for only limited commercial uses.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

Written Recommendation from Planning Board **June 28, 2022 Meeting**

Zoning Map Amendment 2022-04. Miller Tree Service, Inc. has applied to rezone approximately 6.77 acres from Residential Agricultural (R-A) to Highway Business (H-B). The subject properties are located at 327 and 337 Hillcrest Drive at the intersection of Hillcrest Dr and NC HWY 801 S. The properties are further described as Davie County Tax Parcel F800000069 and F800000068.

The Board voted for Approval of the Zoning Map Amendment; (4 in favor and 2 opposed):

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because the Comprehensive Plan policy goals are to incentivize development near infrastructure to reduce growth demand on prime agricultural farmlands by allowing increased density. Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above; and, because the zoning would be in harmony with the surrounding highway business and commercial uses as well as the property's location along a major intersection.

This reflects the recommendation of the Planning Board.

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential 12.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Commercial/Mixed-Use on the Davie County Land Use Category Map. The Commerical/Mixed Use district is defined as commercial activities including shopping, retail, services, offices and other commercial business, along with other intensive land uses compatible with commercial business, including medium to high density residential, civic or light industrial uses and where roads, water and sewer can support those activities.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Rural Growth Area. This area is characterized by traditional agricultural operations, pasture land, forestry, and open space scattered non-farm residences on large tracts of land. Rural scenic vistas are a natural part of the landscape. There is normally an abundance of large, undeveloped tracts not experiencing significant residential development encroachment or pressure. There are natural, scenic, historic, or other heritage assets that contribute to the special characteristics of the area that might require special conservation and management. Land use changes in this area should be designated to protect the rural character and discourage premature public infrastructure demands by sustaining groundwater recharge capacity.

The Growth Enhancement Strategy describes policies within the rural growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply

stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Planning Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Planning Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The property's classification of Commercial/Mixed Use on the Comprehensive Plan Map.
2. The existing of Highway Business zoning in the vicinity.
3. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is designated as a rural growth area on the Growth Enhancement Strategy Map.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

The 'greasy corner' area of Davie County has essentially no food service. I would like to fulfill some of this business need. I would like to have lots 2519 and 2513 zoned highway business to build a chicken barbecue business building as I have outlined in this application. Other food products would also be available.

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential Agricultural.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Residential/Mixed-Use on the Davie County Land Use Category Map. The Residential/Mixed Use district is defined as single family residential development as well as other compatible land uses such as civic uses, limited retail services, and some higher intensity residential development (townhomes, duplexes, condominiums, etc.). Planned for areas near or adjacent to predominantly non-residential land use categories such as commercial or industrial.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Ensure that the location and design of parking and loading areas is well integrated into the overall development site and is designed to minimize negative visual and operational offsite impacts whenever practicable.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Secondary Growth Area. This area is characterized by transitional residential development is predominant in this area with major subdivisions scattered between agricultural and commercial land use patterns. Both public water and sewer infrastructure access is unlikely within the immediate future. The availability of large undeveloped tracts can substantially alter the development character of established residential areas.

The Growth Enhancement Strategy describes policies within the secondary growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Planning Board heard the request at their June 28th meeting and voted 4-2 to recommend approval of the request (see attached draft minutes and written recommendation).

XII. BOARD ACTION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The proposed zoning would be in harmony with the surrounding uses.
2. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is classified residential/mixed use on the 2019 plan, which allows for only limited commercial uses.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential 12.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Commercial/Mixed-Use on the Davie County Land Use Category Map. The Commerical/Mixed Use district is defined as commercial activities including shopping, retail, services, offices and other commercial business, along with other intensive land uses compatible with commercial business, including medium to high density residential, civic or light industrial uses and where roads, water and sewer can support those activities.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Rural Growth Area. This area is characterized by traditional agricultural operations, pasture land, forestry, and open space scattered non-farm residences on large tracts of land. Rural scenic vistas are a natural part of the landscape. There is normally an abundance of large, undeveloped tracts not experiencing significant residential development encroachment or pressure. There are natural, scenic, historic, or other heritage assets that contribute to the special characteristics of the area that might require special conservation and management. Land use changes in this area should be designated to protect the rural character and discourage premature public infrastructure demands by sustaining groundwater recharge capacity.

The Growth Enhancement Strategy describes policies within the rural growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply

stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Planning Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Planning Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The property's classification of Commercial/Mixed Use on the Comprehensive Plan Map.
2. The existing of Highway Business zoning in the vicinity.
3. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is designated as a rural growth area on the Growth Enhancement Strategy Map.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

The 'greasy corner' area of Davie County has essentially no food service. I would like to fulfill some of this business need. I would like to have lots 2519 and 2513 zoned highway business to build a chicken barbecue business building as I have outlined in this application. Other food products would also be available.

Written Recommendation from Planning Board June 28, 2022 Meeting

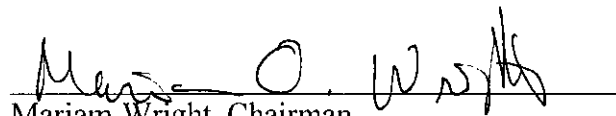

Zoning Map Amendment 2022-05. Delmar McDaniel has applied to rezone approximately 2 acres from Residential 12 (R-12) to Highway Business (H-B). The subject properties are located at 2519 and 2531 US HWY 601 S. The properties are further described as Davie County Tax Parcel L5140A0021 and L5140A0022.

The Board voted for Approval of the Zoning Map Amendment; (6 in favor and 0 opposed):

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because the Comprehensive Plan policy goals to limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections. Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because property's classification of Commercial/Mixed Use on the Comprehensive Plan Map, the existence of Highway Business zoning in the vicinity, and the property's location along a major intersection.

This reflects the recommendation of the Planning Board.

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential Agricultural.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Residential/Mixed-Use on the Davie County Land Use Category Map. The Residential/Mixed Use district is defined as single family residential development as well as other compatible land uses such as civic uses, limited retail services, and some higher intensity residential development (townhomes, duplexes, condominiums, etc.). Planned for areas near or adjacent to predominantly non-residential land use categories such as commercial or industrial.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Ensure that the location and design of parking and loading areas is well integrated into the overall development site and is designed to minimize negative visual and operational offsite impacts whenever practicable.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Secondary Growth Area. This area is characterized by transitional residential development is predominant in this area with major subdivisions scattered between agricultural and commercial land use patterns. Both public water and sewer infrastructure access is unlikely within the immediate future. The availability of large undeveloped tracts can substantially alter the development character of established residential areas.

The Growth Enhancement Strategy describes policies within the secondary growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Planning Board heard the request at their June 28th meeting and voted 4-2 to recommend approval of the request (see attached draft minutes and written recommendation).

XII. BOARD ACTION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The proposed zoning would be in harmony with the surrounding uses.
2. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is classified residential/mixed use on the 2019 plan, which allows for only limited commercial uses.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

Written Recommendation from Planning Board **June 28, 2022 Meeting**

Zoning Map Amendment 2022-04. Miller Tree Service, Inc. has applied to rezone approximately 6.77 acres from Residential Agricultural (R-A) to Highway Business (H-B). The subject properties are located at 327 and 337 Hillcrest Drive at the intersection of Hillcrest Dr and NC HWY 801 S. The properties are further described as Davie County Tax Parcel F800000069 and F800000068.

The Board voted for Approval of the Zoning Map Amendment; (4 in favor and 2 opposed):

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because the Comprehensive Plan policy goals are to incentivize development near infrastructure to reduce growth demand on prime agricultural farmlands by allowing increased density. Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above; and, because the zoning would be in harmony with the surrounding highway business and commercial uses as well as the property's location along a major intersection.

This reflects the recommendation of the Planning Board.

IX. LAND USE/ ZONING HISTORY

- **1973:** The property is originally zoned Residential 12.

A. Proposed Zoning

The H-B Highway Business District was established principally for retail operations that located on the roadways throughout the county.

B. Utilities

Public water appear to be available at the site and a private septic system would be used.

C. Davie County Comprehensive Plan

The property is located in an area designated as Commercial/Mixed-Use on the Davie County Land Use Category Map. The Commerical/Mixed Use district is defined as commercial activities including shopping, retail, services, offices and other commercial business, along with other intensive land uses compatible with commercial business, including medium to high density residential, civic or light industrial uses and where roads, water and sewer can support those activities.

The Comprehensive Plan states:

- Incentivize development near infrastructure (e.g. roads, water and sewer) to reduce growth demand on prime agricultural farmlands by allowing increased density.
- Promote mixed use development to encourage proximity of housing to employment and reduce work trip travel time.
- Support innovative and flexible land planning techniques as a means of encouraging development configurations which are more desirable and which may better safeguard existing natural land and water resources.
- Encourage connection of dead end streets to nearby arterials and collector streets to reduce travel time and improve emergency access to newly developing areas.
- Ensure quality commercial, office, and institutional development. Encourage increased density in primary and secondary growth areas.
- Encourage mixed use industrial or business development to allow residential development on portions of new development or redevelopment.
- Encourage planned development that mimics the existing architectural aesthetic of nearby land uses, ensures internal and external walkability and bikeability connections and complements nearby residential land use.
- Discourage narrow or linear single land use category zoning districts.
- Increase infill development by incentivizing reuse of existing vacant or underutilized buildings and properties.
- Limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

D. Davie County Growth Enhancement Strategy

The property is located in an area that is designated as a Rural Growth Area. This area is characterized by traditional agricultural operations, pasture land, forestry, and open space scattered non-farm residences on large tracts of land. Rural scenic vistas are a natural part of the landscape. There is normally an abundance of large, undeveloped tracts not experiencing significant residential development encroachment or pressure. There are natural, scenic, historic, or other heritage assets that contribute to the special characteristics of the area that might require special conservation and management. Land use changes in this area should be designated to protect the rural character and discourage premature public infrastructure demands by sustaining groundwater recharge capacity.

The Growth Enhancement Strategy describes policies within the rural growth area as:

Policy 4.2 Highway-oriented commercial uses will be clustered along segments of arterial streets and contain land uses that are mutually compatible and reinforcing in use and design. They will be designed in a way that minimizes signage, access points and excessive lengths of commercial strip development.

Policy 4.3 Rural area commercial development should be limited to neighborhood business uses, farm supply

stores, and generally accepted rural business establishments.

Policy 4.4 Commercial uses will be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.

Policy 4.5 Effective buffering and/or landscaping will be provided where commercial development adjoins existing or planned residential uses.

Policy 4.6 Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas will be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.

X. ISSUES TO CONSIDER

The Planning Board may not consider any specific use of the property but all possible uses in the Highway Business district. The Planning Board may approve or deny, or defer the request for additional consideration. The Board should consider the following in making its recommendation:

1. The property's potential as a commercial use.
2. The property's potential as a residential use.
3. The property's location along a major arterial.
4. If rezoning is approved, any new structure will go through a Project Review to ensure compliance with zoning ordinance standards such as setbacks, landscaping, buffers, parking, etc.
5. Whether the proposed reclassification is consistent with the purposes, goals, objectives, and policies of adopted plans for the area.
6. Whether the proposed reclassification is consistent with the overall character of existing development in the immediate vicinity of the subject property.
7. Applicable Zoning Ordinance Sections: The following sections of the Zoning Ordinance are applicable to this request: §155.125(B) Table of Uses; §155.145 Highway Business district; §155.161(B) Procedures for Regular Districts; and, §155.250-253 Changes and Amendments.

XI. PLANNING BOARD RECOMMENDATION

The Board should consider one of the following actions:

Rezoning

☐ **Move that the following statement be adopted in support of a Motion to Approve;**

The proposed zoning amendment is consistent with the Davie County Comprehensive Plan because:

1. The Comprehensive Plan policy goals to limit rural area commercial development to local convenience stores, farm supply stores, and generally accepted rural retailing establishments and require them to be clustered near road intersections.

Therefore, we find this zoning amendment is reasonable and in the public interest because it supports the Comprehensive Plan policies and maps above and because:

1. The property's classification of Commercial/Mixed Use on the Comprehensive Plan Map.
2. The existing of Highway Business zoning in the vicinity.
3. The property's location along a major intersection.

☐ **Move that the following statement be adopted in support of a Motion to Deny,**

The proposed zoning amendment is not consistent with the Davie County Comprehensive Plan because:

1. The requested parcel is designated as a rural growth area on the Growth Enhancement Strategy Map.

Therefore, we find this zoning amendment is unreasonable and not in the public interest because it does not support the Comprehensive Plan policies and maps above and because:

1. The amendment does not protect the areas residential rural historic character.
2. The proposed amendment is incompatible with the surrounding residential structures.

☐ **Defer** the amendment for additional consideration

How will the public be notified of the Zoning Map Amendment change?

The public will be notified in three ways. First, a sign will be posted on the property being rezoned. Second, a public notice will be submitted by the Davie County Development Services Department to the *Davie County Enterprise*. Third, by a notice being sent to all property owners located within 500 feet of the property lines of the property being rezoned.

The 'greasy corner' area of Davie County has essentially no food service. I would like to fulfill some of this business need. I would like to have lots 2519 and 2513 zoned highway business to build a chicken barbecue business building as I have outlined in this application. Other food products would also be available.

1. Public Comments Period Rules

7. Public Hearings

There were two Public Hearings this evening:

1) Zoning Text Amendment - 2022-01: Solar Facilities - presented by Senior Planner, Adam Barr and Planning Board Chair Mariam Wright. Mr. Barr described the purpose of this text amendment is to consider changes to the requirements for solar energy generating facilities. Solar farms are permitted with conditions within the SP Special Purpose zoning. The text amendment proposed amending those conditions in sections 155.151 and 155.130.29 of the Zoning Ordinance. Mr. Barr mentioned this review began to review in 2021, a sub-committee was formed.

The Planning Board's Chair, Ms. Wright spoke and updated the Commissioners about the re-write in front of them. Ms. Wright gave a brief executive summary. She mentioned the decommissioning costs of a solar farm in Davie County is not beneficial and puts the County at substantial risk. Expected decommissioning costs are expected to be \$9,000,000 for the Ratledge Road and Junction Road solar farms. The revenue expected is \$2,000,000. The risks far outweigh the benefits. She also mentioned the solar farm ownerships change hands very quickly. Thus, leaving the question is who is responsible for decommissioning.

The Public hearing was opened at 6:37 p.m by Vice Chair Renegar as Chair Blakley had stepped out of the meeting for a brief period of time.

1) Andy Backus - who is a part of Planning Board, spoke in favor of the proposed ordinance changes. He urged the adoption of the ordinance.

2) Nick Slodgick - who owns a farm on Junction Road, stated the Planning Board has done a wonderful job getting into the details of the ordinance. He spoke in favor of the proposed changes to the ordinance.

3) Dr. Herb Eckerland - has been a proponent of solar energy for years; he stated solar farms are very inefficient and the interests are typically sold within 3 years. He is concerned about tax implications and decommissioning

4) Dr. Bonnie Grigsby - stated she stands with Planning Boards decision and appreciates their forward thinking. She asked the Commissioners to please put the ordinance in place to protect the County.

As there were no other citizens who wished to speak, the Public Hearing was closed at 6:50 p.m. The Commissioners expressed concerns about taking rights away from farmers. They also expressed the desire for no more solar farms in Davie County.

A motion was made by Commissioner Jones to approve the proposed ordinance changes: the Board finds the amendment promotes public health, safety, and general welfare; is consistent with all applicable adopted plans and considers the action to be reasonable and in the public interest; that said approval furthers the goals, objectives, actions and policies of the Comprehensive Plan and Growth Enhancement Strategy by clarifying standards for utility scale solar facilities. Commissioner Renegar seconded the motion. The motion passed 4-1 (in favor, Blakley, Renegar, Jones, Poindexter; opposed Finney)

2) Motorsports Fund Grant Agreement - Robin West, Chief Financial Officer/Assistant County Manager - spoke about the Motorsports Relief Fund. She mentioned the grant funds are to help mitigate issues because of COVID 19. Farmington Dragway made application back in February for the grant with the Department of Commerce for \$485,000 and \$22,654 (the County can withhold 10% for grant administration). There is extensive reporting (monthly) with this grant. It is a reimbursement type grant.

The Public Hearing was opened at 7:01 p.m. One person spoke:

1) Buck Burkhardt - he is a small business owner of High Performance Holdings who is requesting the grant be approved. He stated the funds will go for safety, asphalt, pot holes, etc.

No one else came forward. The Public Hearing was closed at 7:04 p.m.

Interim County Manager, Mike Ruffin stated there are two grant agreements with NC Department of Commerce and a single agreement with High Performance Holdings. The total amount of \$50,000 for administration will be held by County. The NC Pandemic Office sent a lot of rules and regulations that High Performance Holdings must abide by for the funds.

Commissioner Poindexter made a motion to approve the grant for High Performance Holdings. Commissioner Finney seconded the motion. All were in favor, and the motion passed 5-0 (Blakley, Renegar, Finney, Jones, Poindexter).
